A 1942 RESOLUTION
THAT IN THE COMING YEAR: I, WE CONSUMER, WILL BUY
OR AT LEAST GIVE A CHANCE TO COMPETE TO MY

HOME TOWN STORE
This we know is not 100 per cent advertising for ourselves, but
we are not selfish.

We know there is a large amount of pure country spirit outside
of Alix, possibly more than the amount of business done by your
local merchants.

We are not complaining in the least we are well satisfied with the
amount of business you have given us during the year, you and we
nearly appreciate it, but in comparison with our own area and capital
located in stock it should be considerable more.

There are lots of merchants that we can compete with Mail
Order Houses and Outside Points and we ask this opportunity to
serve you.

We realize that to 100 per cent advertising we will give you
Quality Merchandise at a price you would expect to pay.

WE BUY RIGHT, WE SELL RIGHT.

Canadian Bazaar Board

The Alberta Bazaar Board's
Committee wishes to draw special at-
tention to the recent announcement
made by the Canadian Bazaar Board
in which it is stated that the
provisions of the Bazaar Board are
the most liberal in the world.

In the coming season to be held on
December 1st, the Canadian Bazaar
Board has decided to hold its
annual bazaar on that date. It is
hoped that the bazaar will be
the most successful in the history
of the Board.

If the number of these off-grade
bills is not substantially reduced, the
bazaar product which can only be
sold on the domestic market will be
thrust into the foreign market.

The statement from the Board is
contained in the following points:

1. The Board will do all that can
be done to the highest possible price
is paid for bazaar goods, quality
being the first consideration. It is
proposed that the price be given to
producers who permit in marketing
of a type and origin that cannot
be exported.

2. The Board will do all that can
be done to the highest possible price
is paid for bazaar goods, quality
being the first consideration. It is
proposed that the price be given to
producers who permit in marketing
of a type and origin that cannot
be exported.

By Order of the Wartime Prices and Trade Board

You Must Have a Licence by March 31, 1942

Every Person or Firm is Required to Have a Licence

1. if engaged in the business of buying for resale or selling any commodity; or
2. if engaged in the business of supplying any of the following services:
 the supply of electricity, gas, steam or water; telephone, wireless or telegraphic service; the transportation of goods or persons; the provision of dock, harbor, or pier facilities; the construction or storage; manufacturing or embossing; laundering, cleaning, tailoring, or dressmaking; bootmaking, shoemaking, or beauty parlor services; printing, binding, pasting, despatching, drawing, or engraving; repairing of any kind; the supplying of meals, refreshments or beverages; the exhibiting of motion pictures; process manufacturing as a custom or commission basis.

IF YOU HAVE ALREADY APPLIED FOR OR OBTAINED A WARTIME PRICES AND TRADE BOARD LICENCE UNDER A PREVIOUS LICENSING ORDER, YOU SHOULD NOT APPLY AGAIN

Why Licence Applications Should Be Made At Once

Apart from the legal requirements, licensing of your business will enable the Board to regulate you quickly and fully of the price control regulations that affect your business.

To Get Your Licence

1. Get an application form of your nearest post office.
2. Complete the application and mail it, postage free, to the Board.
3. You will receive by mail a Licence Identification Card bearing your licence number.

Those Who Do Not Need a Licence

1. farmers, gardeners, hucksters or poultry producers, and fishermen, unless buying for resale;
2. employees of a person or firm which is itself subject to licence;
3. operators of private boarding houses.

NOTE: Persons who have already applied for or obtained a Wartime Prices and Trade Board Licence should not apply again.

FOR FURTHER INFORMATION WRITE THE REGIONAL DIRECTOR OF LICENSING, WARTIME PRICES AND TRADE BOARD, AT THE NEAREST OF THE FOLLOWING CITIES: VANCOUVER, EDMONTON, REGINA, WINNIPEG, TORONTO, MONTREAL, HALIFAX, SAINT JOHN OR CHARLOTTETOWN

Issued under the authority of the WARTIME PRICES AND TRADE BOARD, Ottawa, Canada

WHAT THE LAW REQUIRES YOU TO DO

After March 31, 1942, any official, representative, or investigator of the Wartime Prices and Trade Board may require you to produce your Licence Identification Card if you are subject to this licensing order.

After March 31, 1942, you must notify the Director of Licensing of the Wartime Prices and Trade Board of any change in the name, address, or character of your business within 10 days of such change.

You must retain your Licence Identification Card as it will remain in effect, unless suspended or cancelled, as long as the Maximum Prices Regulations continue. If you are already licensed, a Licence Identification Card, valid for the duration of these Regulations, will be automatically mailed to you before March 31, 1942. You need not apply for a renewal and there is no license fee.

Thrift BUILDS TANKS

Never before has individual thrift been so vital a factor in our country's history. Every dollar you save means credit in the market at this time.

To overtake the enemy and insure a victorious peace the nation must have a steady, unceasing supply of food and clothing. That such a man may count on food without individual savings - well, that's thrift.

And the war is in under way - and that's your war bond. Watch your spending. Build up a reserve of liquid dollars out of your savings. Save for victory.

► This book will help you save.
The Thrift Book, 1 cent. Shows just where you have to budget your income, how to save by planned spending. Ask for a free copy at your nearest branch.

The ROYAL BANK of Canada

SEEDTIME and HARVEST
By Dr. E. B. Smith

Special Agricultural Department
North-West and Western Association

To Trust or not to Trust

This article is out in the daily papers, a discussion of the importance of the seed. It is concerned with the more important of the seed. It is concerned with the more important of the seed.

Good treatment is insurance and the all insurance costs something. We are all obliged to decide whether it pays to insure our buildings, cars, lives or crops, and if we decide that in the long run we shall gain by carrying the risk ourselves, we don't insure.

So it is with seed treatment except that sometimes we can be almost certain that treatment will save money if in 1941, we had had to make a decision about it. We would have decided to treat.

In Alberta, plant authorities have agreed to recommend treatment of cereal seed with an organic mercury dust as a regular practice in Manitoba crop districts 3, 4, 5, 9 and 10 farmers using their own seed are advised to treat with Corasan or Leysox due to the prevalence of rust-rings and leaf-spotting fungi. Elsewhere in Manitoba and in Saskatchewan, farmers must make the decision for themselves.

The Associated Laboratory Services, with laboratories in Saskatchewan have undertaken to examine seed samples and to advise for or against treatment. This is undoubtedly a good use. But, though treatment may have been considered unnecessary last year, the use now shows that it need not be done this year. Also, if one farmer is advised not to treat, his neighbors should not accept a warning that they would get the same advice.

Important!

Recently, Government regulations, vital to the well-being of Canada's economic structure and to the furtherance of our war effort, were introduced. EATON'S is co-operating with the Government to the fullest extent in the carrying out of these regulations. Because of the extra detail involved,

EATON'S SPRING and SUMMER CATALOGUE for 1942

cannot be delivered at its usual time. However, it will go forward as quickly as conditions will permit.

In the meantime, continue to avail yourself of EATON'S Midwinter Sale and Fall and Winter Catalogues, both of which will remain on sale until the Spring Catalogue is published. Every page in both of these big books is filled with savings.

WATCH FOR... EATON'S FEBRUARY BARGAIN FLIER!

It contains a great sale of Winter Bargains—clothes and other goods at prices to save you a big saving. This Flier is published for one week only. If you do not receive your copy within a few days, write immediately!

Mr. B. W. Johnson who has been appointed District Fight Agent for the Canadian National Hunt says, with his signature to a very exciting railway notice in 1933 Mr. Johnson had various clerical positions in Winnipeg, Brandon, Saskatoon and Vancouver. In 1933 he was appointed chief clerk in the light traffic department, Winnipeg.

Mr. Johnson married, B. H. He has a wife who has been resident in Winnipeg in constant care of English agent.

Haynes News

The Junior Red Cross of the Haynes School held a very successful tea and sale of work home cooking etc in the church recently. The event was well attended and the children were pleased to report that they had cleared \$12.65.

The Ladies Aid met at the home of Mrs. MacBarron on Wednesday of last week. After routine business was discussed the following officers were elected for this year:— Pres., Mrs. T. Skelton; Vice Pres., Mrs. H. Verpinch; Sec., Mrs. J. Daly; Treas., Mrs. R. Willis.

Mr. and Mrs. Jack Paul were visitors at Bentley for several days recently.

Miss Alice Evelyn of Red Deer spent the weekend at her home here.

The dance he'd in the hall on Monday of last week was not well attended due to the cold weather, but those present report a good time.

The Post Office is now located in the house formerly occupied by Miss Evelyn opposite the station, Mrs. Macquay having moved there last Wednesday.

Omitted from last week's Red Cross notes. Executive: Mr. J. Archibald, Mrs. L. Quessett, Mr. J. Paul; Organists: Messrs. Mr. J. Daly, Organist of work group, Mrs. H. Verpinch.

1933-34 in Club and Merchandise Prize are being offered to members and about 6,000 covered Points of interest were getting under way in the Family Herald and Weekly Star. Several from this 16-week Club have are the interesting points about the problem that contestants may start competing for the Club Prize of about \$100,000 of the prize and the attention.

Like the Family Herald's previous 16-week Club contest the new 16-week Competition is being entered by thousands of Canadian.

Family Herald Contests are justly renowned for being entertaining. The editors of that 90-year-old publication feel that every good contest should be designed to provide fun as well as profit. They also feel that in these depression times, entertainment should be an important place in well balanced living. Therefore, for the same reason, the Family Herald contests are designed to be fun as well as profitable.

By all who have fun, pointing a finger at the 1933-34 Family Herald contest (the top prize in the Crowned Pheasant Contest) is \$10,000. This new Family Herald contest should not be missed.

CLIVE NEWS

Mr. and Mrs. Paul have visited with the Williams family. Mrs. L. Wickensburg and son are visiting with Mrs. Wickensburg's parents Mr. and Mrs. Wickensburg.

A number of young people from Clive attended the first year weekend at the Watnabi win Bible College.

Mrs. C. McMillan who has been visiting with relatives returned Monday to her home in Edmonton.

Mrs. Skelton's group met at the home of Mrs. Allen's Thursday to perfect plans for the supper to be held Tuesday evening.

Miss Jean Martin returned home from the hospital Monday but still is confined to her bed for a while yet. We hope she will soon be better.

The W. C. T. U. met at the home of Mrs. H. Wickensburg on Thursday afternoon.

The Red Cross Tea Hostesses Mrs. R. McCormack and Mrs. H. Kingston raised \$6.00 for the local Red Cross.

CANADIANS never shall wear the shackles of slavery. This is the stern determination of every man and woman in the Dominion.

But Freedom must be fought for—and paid for.

Today, more weapons, more equipment are a dire necessity. Victory Bonds will help supply them.

All those serving at the battlefronts are relying on our support. Back them up with Victory Bonds.

Remember, every Victory Bond you buy is a sound interest-bearing investment, secured by the nation's entire resources.

Come on Canada!

SLEEPING SICKNESS IN HORSES

Equine Encephalomyelitis

The Dept. of Agriculture believes that the horse industry is important in Canada's War effort, and that horses are necessary to carry on operations on the great majority of Alberta farms. The protection of the horse population against Sleeping Sickness is therefore, essential. Vaccination with "Chick" Vaccine is the only known method of preventing the disease. The Dept. of Agriculture therefore, recommends the vaccination of all horses.

Red Cross Notes

Don't forget the date of the

Dramatic Festival, April 26th and May 1st. Groups from Alix, Mirror, Uxley Lake, and the Girl Guides are competing. There is still room for other play or two if these can be found. We understand some plays have had to be cancelled owing to sickness, but there is still time for a group to get going. Remember, the more volunteers the better.

The Girl Guide school "Keep the Home Fire Burning" hopes to come off on Friday, April 17th, giving our favorite collection of money or other articles. The girls have had numerous articles but are still going strong. Watch for their particulars.

There was considerable excitement in Alix on Monday morning when Mr. Flindler's cleaning house caught fire.

The Fire Department was called but were unable to get on the quickly spreading flames. Mr. Flindler was badly hurt and suffered serious shock. Mr. Flindler was burnt on his face and hands.

Attention Farmers

Farmers who made application for Wheat Areas Reduction payment in 1931 will be furnished in the near future by mail, with the basic 1930 averages as set up from applications filed by them in 1931. This is a valuable record and will greatly assist in making future applications. Farmers are urged to keep these records in a safe place where they can be referred to when inspection are made during 1935.

SLEEPING SICKNESS IN HORSES

Equine Encephalomyelitis
The Dept. of Agriculture believes that the horse industry is important in Canada's War effort, and that horses are necessary to carry on operations on the great majority of Alberta farms. The protection of the horse population against Sleeping Sickness is therefore, essential. Vaccination with "Click" Vaccine is the only known method of preventing the disease. The Dept. of Agriculture therefore, recommends the vaccination of all horses.

LET US GET THE VOTE OUT

It may be taken for granted that the majority of Western Farmers intend to vote "yes" in the Plebiscite on April 27th. They are determined to make the National War Effort fully effective; they realize that voting is a National duty.

But the response of the West will be fully satisfactory only if every possible vote is polled. Get your vote in and use that every qualified member of your household also votes. Remind your friends of the vote and help neighbors get to the polls. Join in your Community Organization to get out the vote.

Then the vote of the West will be strongly heard as part of the National voice.

Necessity For Regulations

Leaders of the Food Trade in Britain issued a manifesto entitled "A Report to Parliament on the Law" which appeared in a British newspaper of the 10th inst. including the following observations:

In times of war the food trade becomes increasingly important to the life of the nation. Producers of prime or second quality of apples quickly find every year a ready market for their produce. In times of peace, however, the demand is a great responsibility.

"We realize the enormous responsibility, but no law can cover every case. There are countless occasions on which it must be left to the discretion of the individual. The law is not perfect. It is not intended to give a foolproof guarantee of producing or obtaining 'honest' goods. It depends on the spirit with which the individual applies the regulations to himself and his business.

"The law is not an end in itself, nor does it, we all need the fruit of his spirit, but in the absence of apparent danger it is not easy to maintain a spirit of comradeship and self-control equal to that of the treatment of the law between manufacturer or wholesaler, retailer and consumer or

"The creative force for the great task before us can come from an immense source. We need a superhuman discipline which reaches down to the smallest detail of our lives. We must have a spiritual incentive stronger than security or profit. This is our part in moral rearmament, in the building of that line of faith, honesty and unselfishness on which our nation depends.

"If, even so, a consequence of the tragedy of war this spirit could be achieved, foundations of economic peace and prosperity might be laid which would be the finest assurance for the world of tomorrow."

Building a New Superdiscipline

We can keep on thinking straight about reasoning. We haven't been
bumped off. Our daily life is very little different from what it was a
few years ago. Our gratitude should grow as we do our utmost. Next
Monday we may hear announcement of further reasoning and the Sunday
after that, and the Thursday after that. What if we are caught with short
of our day's supply on hand. Let's laugh and get into our stride, believing
that democracy works because democrats are willing to work together.

Women have a special privilege and responsibility in the daily life
of the country at this time. They do at least seventy per cent of the nation's
shopping. Many of them will be thinking with their sisters overseas, that

They use this right by keeping the people in the dark on their side of the ledger. They use this right to keep the people in the dark on their side of the ledger of regulations with regard to buying and selling the stock of other companies to refrain from insider trading. They have also determined to make France enquire when pushed by a riot in Paris. Instead of expediting prohibition and speeding about it; to co-operate with merchants by paying killing promptly, to take risks in itself, and to use that nothing is wanted. In this spirit they believe that they can fight to conquer the fear, greed and selfishness which are the ultimate causes of war. Hence from a spirit cannot be satisfied. It is an vital a need as our daily bread, if we are to build up a world where we and our children can rejoice in the freedom

While welcoming leaders from us on one hand, it gives to us with the other. It gives us more greater opportunities to build up a strong basis of credits and investments in Canada. A quality of estimating that prices it must to himself, and above all ensure it a privilege in ability in the countries that will increase in the future.

The prospect that wartime civilian clothes will be stockpiled is far from remote. But the maiden set to give her men need not worry.

Many years ago F. Marion Crawford who had extensive knowledge of the race on three continents, made a sage observation. "Fashion is drawn," he said, "appears to correlate less influence upon men and women

men smile, according to estimates from the Census Bureau, which says that more than 40 million adults profess to be in love. In addition, the survey found that 10 million women are engaged to be married. In Sweden everything goes so far that even the high heels and garter ties have been precisely an odd five and five years ago, when people wore flat shoes and when gloves with three buttons had not been dreamed of."

AN ILLUSTRATED NEWS-PAPER FOR THE ALIX DISTRICT

ALIX, ALBERTA, THURSDAY, MAY 24, 1939

SALVAGE

With what we are hearing, through the Radio day by day and through our papers I should not be necessary to point out the reason for the necessity of our salvaging all Rubber, all cans, Paper, Iron, Copper and Tin from the newspapers, these found around the average home in the Alix District.

At the end of our rubber supply we are out with the loss of the Red Indians and the loss of our rubber is the loss of our life you live and believe that you have a definite part in maintaining it, take the little time needed to gather what of the above commodities you have around the place and bring them to the nearest dealer and we will be glad to take them to the nearest dealer.

The rubber shortage is so serious that our ability to fight an all-out war is imperilled the greatest problem confronting the United Nations. A. H. Williams, Controller of Supplies.

All Iron Scrap and Bones will be removed at the Alberta T. Co. in Mirvint.

\$9,000,000 NEEDED NOW!

Every dollar you give to the Red Cross is multiplied by three!

EVERY RED CROSS DOLLAR does the work of three dollars. The Red Cross buys materials at bottom prices. The millions of Red Cross workers, knitting, sewing, cooking, visiting, find, finishing these goods and incorporating them into the Red Cross supplies.

It is well that this is so, for food, clothing, shelter and transportation cost money.

POOL PATRONAGE DIVIDENDS

The Alberta Wheat Pool announces that a Patronage Dividend of one-quarter of a cent a bushel will be paid during July next on deliveries of wheat and coarse grains to Pool Elevators, (also platform shipments), in the crop years 1938-39 and 1939-40.

To qualify for this dividend, all who delivered grain to Pool Elevators in the years mentioned must be members of the Alberta Wheat Pool.

Non-members who delivered to Pool Elevators may become members through acquisition, prior to July 1st, 1942, of Alberta Wheat Pool reserves to the value of \$5.00. Your nearest Pool agent should be in a position to put you in touch with Pool members who have reserves for sale.

A TIMELY WARNING

Truck drivers who take happy parties on pleasant summer jaunts, run the risk of having their gasoline rationing books lifted, warns the War-time Prices and Trade Board. It does not matter if the truck driver carries them free.

Gas rationing is intended to preserve all the gasoline possible for the use of the armoured forces. A special clause in regulations prohibits commercial vehicles from carrying passengers. It reads:

"No person shall load/unload or operate or cause to be used or operated, whether for or without compensation, any vehicle in for the transportation of persons other than the driver and any assistant necessary to load or unload goods on or from such vehicle."

Mr. Theo. Kerp of 1,111, wishes to announce the marriage of his daughter, Miss Kathleen, to Mr. Robert H. Strube, at the bride's home on Thursday, May 21st, 1942.

At the Home-Services Training Centre, girls are trained to become skilled housekeepers over a four months period. They learn cooking, sewing, nutrition and marketing, house-keeping, cleaning, saving and mending; home nursing, first aid, personal improvements; and as time permits, training in handicrafts is given. The aim is "to assist the girl to become a skilled housekeeper, cook and housemaker first as an assistant in the home of her employer as in her own home." Young women interested in such training, who can support themselves over the four month training period, are urged to apply in the Youth Training Centre, 1033-125 street, Edmonton, or 207 12th Avenue W. Mrs. Brown?

Maybe you think your small change cannot help... that "total war" means "immediacy also."

Maybe you're one of the thousands of housewives who haven't yet started to put even 50¢ a week into War Savings Stamps—just a neutral...

There aren't any neutrals in this war! You're a help or a hindrance to victory. You can't get out of it. If you spend thoughtfully you'll deny our fighting forces the arms they need and hamper your own future. If you and 2,000,000 other housewives in Canada put only 50¢ a week into War Savings Stamps, it's a \$1,000,000 a week to help win the war. Which side are you on?

... Put your Savings Stamp here today, just fifteen cents... the green and other color stamps.

C.A.D.F. Annual Meeting

The annual meeting of the
C.A.D.F. was held in Alma on
Tuesday, June 16th, with a
small crowd in attendance, due
to bad roads. Business was
transacted during the day. In
the evening a large crowd and
dinner to a banquet which was
given on in the Legion Hall by
the U.F.W.

Several speeches were made,
the speaker being Mr. McCall-
um, Dairy Commissioner for
Alberta; a Director of the Bar-
chers Pool, and a Director of
the U.F.W.

A short 100 men dinner was
also given.

The Community Club held its annual picnic on Sunday July 1st at Alix Beach. A quiet and useful afternoon was spent after all had partaken of a real old time picnic lunch. It was significant how many of our young people were absent some on ships, or here in the Air Force and Army also munition plants, as few are left to give their best to produce food for our fighting men. May they all join before another year passes.

Mr. and Mrs. C. Hoke and Miss Jean Barritt of Edmonton were guests of Mr. and Mrs. A. Barritt and family.

Maximum Charge on Truck Transport

Truckers moving grain for farmers will charge the prices established in the bands period this fall, the Wartime Prices and Trade board announced. Such prices will apply as the maximum for this season. Also owing to a very limited

amount of new equipment available, farmers will have to use whatever trucks they can to transport grain to the elevators. New equipment is only obtainable through special permit from the Motor Vehicle Controller who must be satisfied that it is to be used only for essential purposes, and that satisfactory used equipment is not otherwise available.

Hope and Robert Dye have returned home from visiting at Pseudob and Langdon.

Mr. and Mrs. Red Doty spent a very quiet afternoon at the home of Mrs. Dye on Tuesday.

The E. C. club met at the home of Mrs. Ripley for its monthly meeting. Important business was transacted and plans for next week's tea and sale in Mirror were completed.

Harry Sharp and friend from Prince Rupert are visiting in Ripley and Mirror.

Mr. Myrtle Longbridge was a week end guest at the Red Doty home.

The Red Cross Tea and Sale held in Mirror on the afternoon of the 24th under the Auspices of the Ripley and Mirror societies was a success. The sum of \$2,100 being made.

Mrs. Gao, Hsien is a guest at the home of her sister Mrs. W. Barrie.

Mr. and Mrs. Bert Barrett were business visitors at Trout Lake on Sunday.

Mrs. Hanson and children were visiting at the home of Mrs. Barrett on Tuesday.

Mr. and Mrs. Douglas Walton were guests of Mr. and Mrs. Tom Walton at Hyman Lake on Sunday.

Start Harvest Co-operation Now

Throughout Alberta farmers are beginning to harvest their crops with less labor than they are accustomed to have for this busy season.

Various methods are being suggested to offset the labor shortage one of which is co-operation between the grower and farmer to handle the equipment and labor available on several farms is pooled for the common good.

It is important that such co-operation be organized immediately the first step is to plan to have the peak of cutting or harvesting all the early crops will be down and the largest number of machines possible will be required to get the remaining grain before the weather turns.

This type of co-operation will take care of the crops as they mature. The secret of the success of the season is it likely that many crops will ripen about the same time and every available piece of equipment will be needed to handle the peak load.

Handling Of Crops Is Made Easier

Steel Controller F. B. K. Kilbourn said that demand for the industry for most quality of crop material has been a dramatic order making it illegal to board from and view whether in the form of machinery or crop.

Without a permit no person except a crop dealer or crop owner may have possession after September 15 of any crop material weighing more than 500 pounds. For purposes of this act metal includes machinery and structural material of any kind of commodity including farm or steel if it is not offering an "immediate utility purpose".

The 500 lbs. of crop can be in one place or many small lots. Officials said that items of crop scattered around farm grounds are covered by order.

LEAVE WOMEN TO HELP WITH HARVEST

Alberta school students who have harvest work this fall will be given leave of absence to order's needs in alleviating the farm labor shortage. It was announced by Premier A. G. Macleod.

Schools will be open September 1st and teachers will prepare a special review of studies so that students who work in the harvest will be able to make up for lost time.

Any pupil who can produce evidence of having been engaged in harvesting operations will be allowed to be absent from school for twenty teaching days at a time between September 1 and October 31.

Parents or principals should make application as soon as possible to the teacher of their nearest district. The pupil or the parent must produce at the end of the school year a statement signed by the farmer showing the number of days work actually done by the pupil.

Mr. Don Wilson has secured a position in Vancouver.

First official estimate from Winnipeg of western Canada's 1943 harvest is expected now at \$2,000,000.

Finance Minister James L. Flaherty declared in an interview that Canada's credit rating is as good as any other country's and that they have never owed money to any other country.

YOUR SCRAP METAL URGENTLY NEEDED!

The New Method makes Scrap Metal
Collection easy for you.

When scrap metal and brass is regularly sorted for some days, brass, silver, copper and sometimes
iron are added to the mass part by leaving in every available corner of every house for your home.

In order to facilitate the systematic collection of scrap metal and brass in the Great Pacific
Provinces, the Western Salvage Institute, a Government Company, has completed collection of the
Salvage Institute Company.

Western Salvage Institute, 4000 Broadway, Vancouver, B.C.
Salvage Institute Company, 4000 Broadway, Vancouver, B.C.

When Government handles and purchases this material on behalf of the Government, sufficient
credit to the Government, and sufficient profit to themselves. Any money required over and
above the actual cost of handling will be donated to War Charities.

An agent of one of the above named Western Salvage Institute has been appointed to your district
on an official basis on behalf of the Western Salvage Institute. The price to be paid for scrap metal
figures has been fixed by the Department of Munitions & Supply at 80¢ per ton net at
the door, for all kinds of scrap metal and steel castings. (a) Brass (b) Iron (c) Steel (d) Copper
(e) Aluminum (f) Lead (g) Tin (h) Zinc (i) Nickel (j) Magnesium (k) Other metals.

This price applies to any destination point in the Pacific Provinces.

Your contribution to the war effort and to the economy is simplified by this arrangement and
it will be your official business to see that you are able to take your scrap metal to the Western Salvage
Institute, for all kinds of scrap metal and steel castings. (a) Brass (b) Iron (c) Steel (d) Copper
(e) Aluminum (f) Lead (g) Tin (h) Zinc (i) Nickel (j) Magnesium (k) Other metals.

"We'll have a real nest-egg after this war!"

OUR FAMILY went through hard times once. It taught us that you can't keep your independence without foresight and sacrifice. We learned what we could do without when we had to. So we know that a real nest-egg means more than just compulsory savings. It means all the War Savings Stamps and Certificates we can lay our hands on.

They're safe. And they're an investment every Canadian should make. Why? Because they help equip our fighting men to protect everything we've got. And because, too, they pay back \$1.00 for every \$1.00 we put aside now. We've got to win this war no matter what it costs - and we've got to prepare against the time when the boys come home.

Buy War Savings Stamps from drugstores, banks, post offices, retail stores and other retail stores. Certificates may be purchased for immediate delivery in denominations of \$5, \$10, \$20 from banks, Trust Companies and Post Offices.

Tough Grass
Tough or deep grass is the first to be removed by the harrow. The harrow will break up the soil and the grass will be in a better position to grow. The harrow will also break up the soil and the grass will be in a better position to grow. The harrow will also break up the soil and the grass will be in a better position to grow.

To Avoid Loss from Tough Grass
After grass is down or worn to ground thoroughly dry then harrow or heavy draw before plowing or harrowing. This will break up the soil and the grass will be in a better position to grow.

NOTE THESE IMPORTANT FACTS ABOUT YOUR

NEW RATION BOOK

to Save Yourself Trouble

The new Ration Books No. 1, now being distributed, do NOT
1. come valid and must not be used until Monday, September 7th,
1942. They will be good for the six months period commencing
2. September 7th.

DATES ON WHICH TEA, COFFEE AND SUGAR COUPONS BECOME VALID

COUPON NO. 1 and 2:	are valid September 7th, 1942 and thereafter
COUPON NO. 3 and 4:	are valid October 2nd, 1942 and thereafter
COUPON NO. 5 and 6:	are valid November 2nd, 1942 and thereafter
COUPON NO. 7 and 8:	are valid December 2nd, 1942 and thereafter
COUPON NO. 9 and 10:	are valid January 2nd, 1943 and thereafter
COUPON NO. 11 and 12:	are valid February 2nd, 1943 and thereafter
COUPON NO. 13:	is valid February 2nd, 1943 and thereafter

Each coupon is good for a two weeks' ration, and two coupons being in use at a time to buy a supply for two weeks.

- **SUGAR COUPONS:** The red coupons, imprinted with the word "Sugar"—the first page of coupons in the book—are the only ones to be used for sugar, and they are to be used for sugar only. Each coupon is good for a two weeks' ration; that is, one pound of sugar.
- **TEA AND COFFEE COUPONS:** The green coupons—the second page of coupons in the book—although marked "Spice A"—are to be used for tea and/or coffee. Each coupon is good for a two weeks' ration of either tea OR coffee; that is, two ounces of tea OR eight ounces of coffee. Only the green coupons can be used for tea or coffee.
- **OTHER COUPONS:** There are three other series of coupons in the book, namely "Spice B", "Spice C", and "Spice D". No use for these coupons has been designated. Do not detach these coupons from your book.

DO NOT USE DETACHABLE POSTCARD NOW

The detachable return postcard at the back of the new Ration Book is intended for use when applying for your Ration Book No. 2. If this postcard is lost or used improperly, there may be complications and delays when the time comes to get the next book. **DO NOT USE THE DETACHABLE POSTCARD UNTIL YOU ARE ADVISED TO DO SO.**

You must write your name and address in ink in the space provided at the top of each sheet of coupons—and you must write the serial number of your book in the space provided on the stub at the side of each sheet of coupons.

All coupons must be detached in the presence of the clerk. It is illegal for him to accept loose coupons.

Penalties are provided for improper use of Ration Books.

The inside front cover of your Ration Book shows the location of your nearest Ration office. Your enquiries should be addressed to that office. Always give serial number of your Ration Book when writing.

GOVERNMENT INSURANCE

IN CASE OF

WAR DAMAGE TO PROPERTY

OWNERS OF PROPERTY ARE URGED TO INSURE AGAINST LOSS BY ENEMY ACTION

The Government of Canada, by Act of Parliament, has set up a Plan of War Risk Insurance against damage to property caused by enemy action—by countermeasures taken against the enemy—by operations of war machines handled by third parties.

In virtue of general information, it may be stated that the Plan provides a certain limited FREE COMPENSATION for damage to unoccupied homes and to chattels, but the main feature of the Plan is the owners of most types of property can protect their property by PURCHASE of GOVERNMENT WAR RISK INSURANCE on very favorable terms.

This type of War Risk Insurance is one having had early by the Government companies, because of the risk involved. Consequently, the Government has established a national scheme to make it possible for each citizen in Canada to purchase the cover of security that comes from knowing that if his property does suffer any damage (and this has come much closer to Canada in the last few months) he will not lose the resources of Canada to help him make good his property loss.

HOW TO OBTAIN GOVERNMENT WAR RISK INSURANCE

The Fire Insurance Agents and Companies of Canada have volunteered to the Government the services of their extensive facilities and personnel, on a non-profit basis, thus avoiding the setting up of the large organization that otherwise would be needed to handle details of this nation-wide Government War Risk Insurance scheme.

YOUR FIRE INSURANCE COMPANY OF CANADA WILL GLADLY FURNISH COMPLETE DETAILS OF THE GOVERNMENT WAR RISK INSURANCE

The Government of Canada is not the only one who can help you. The Government of Canada is not the only one who can help you. The Government of Canada is not the only one who can help you.

I cannot imagine anything more harmful to the cause of Agriculture in Canada than the rules and regulations in the present time we shall have 20 years of wheat on hand in this harvest.

It promises that we are more growing wheat for Canadian consumption which is entirely wrong. We are also producing for Britain and we need a supply of 200 million bushels to supply our needs as well as if we are not very severe we may have to ship a lot more than that.

Anyway the present crop has not yet been harvested and stored in a satisfactory condition and a lot may happen before it is off our soil.

The farmers are fighting against almost every windmill odds in their path attempt to make up for lack of adequate help in their financial straits.

WE'RE GOING TO NEED SO MANY THINGS WHEN THE WAR ENDS...things that are hard to get now

Every day, almost, we find that something else is getting scarce. So often, we are told "they're not making it any more". Factories are making guns instead of ploughs, tanks instead of tractors, planes and shells instead of stoves and beds. We'll have to replace so many things when the war ends... things we can't buy now.

MONEY INVESTED IN VICTORY BONDS

will provide the cash to buy them.

—with Cash

...in one lump sum, with money we have saved. There is no other investment... no better way to protect our savings.

Or—we can buy bonds and pay for them through our banks in monthly instalments. As the instalments come due the bank will charge them to our accounts.

—with Produce

Farm folk can pay for Victory Bonds in another, convenient way by using the "FOR VICTORY" TICKET, simply signing a "Victory Ticket" you can authorize the who buy produce from you to send all or part of the proceeds to the War Finance Committee to buy Victory Bonds for you. (Ask your local War Finance Committee for details.)

L-20

WHAT A VICTORY BOND IS

Look at a dollar bill. A dollar bill is like a bond. It's a promise to pay to the man who has it. You get bills when you sell things and pay them out when you buy things. A Victory Bond is "a bill" intended to be saved. When you keep a \$1000 Victory Bond for a year you receive an additional \$3.00. (3% interest). Buy all the Victory Bonds you can—lend money to Canada to help to win the war. Save your bonds to have money for things you'll need when the war ends.

"Now WE hold a Mortgage on Canada Ma!"

"Sure we're working harder than ever—but that never hurt anybody. We're working longer hours and putting our money away in Victory Bonds. Now we'll be paid interest instead of paying it."

"When peace comes we'll have money saved to buy new equipment for our farm—might even put up a new barn—maybe take a holiday!"

"Meanwhile, we can't think of any safer or better place to invest our money than in bonds backed by our country. And we can't think of any better purpose than helping our fighting boys get the jump on the enemy. When we read about our lads bombing Germany, we can think that maybe we raised one of those bombs on our own farm."

"So that's our plan from now until peace comes. We will work to save and lend. We'll have it to spend later. And we can look forward to getting that new tractor and that fine new automobile we're saving for now."

"We'll be laying up for ourselves the best of all investments—VICTORY BONDS—backed by all the resources of the Dominion of Canada: they yield a fair rate of interest; we can borrow against them; and they are readily salable when we need cash!"

HOW TO BUY

Buy your order on the Victory Loan Machine. The machine will take your money and give you a receipt. You can buy as little as 10¢ or as much as \$100.00. The machine will also give you a receipt for your money.

Produce for Victory

Save for Peace!

Canada is calling—not only for the utmost in farm produce, but for money to fight with. Make your contribution doubly effective. Produce to the War Food Council. Buy Victory Bonds with the proceeds, to the last dollar you can spare. Your money will bring you interest, and will be available for new equipment, machinery, and all those things you will need but cannot be purchased until the war is won.

VICTORY TICKETS

These small Victory Loan Machine tickets will enable you to buy a Victory Bond, whenever you may purchase bonds in exchange for a portion of your farm produce, not when they are wanted.

Victory - Deciding Seconds

WHEN INSTINCT MUST TAKE COMMAND !

Link Trainer
gives student pilot
instant picture of what is
to do and how to do it

In the tense moments of a dogfight when earth and sky flash by repeatedly in a dizzy kaleidoscope, action is too fast for thinking. Instinct must take command. But for Victory, that instinct must be trained to do the right thing in the right way. Such training is given under the Commonwealth Air Training Plan through a machine called the Link Trainer.

This machine reproduces almost every possible flying condition. In absolute safety it puts future pilots through almost every flying maneuver. Sayer Cruisers of the

Ships are trained to meet instantly the unexpected . . . and meet it correctly in those fractions of a second when even Destiny pauses.

Link Trainers have more than a score of delicate, sensitive instruments that record and chart every motion of the machines. These instruments are electrically operated. And in many of the Commonwealth Air Training Centres throughout Alberta the electrical energy for such vital work is supplied by this Company — reliable, dependable power on duty 24 hours a day and every day.

Electricity is Helping to Give the Victory Impetus to the Commonwealth Air Training Plan.

Control Airport

They Re-Head in The Heart Of
London After War

A great airport, owned by a
British War Memorial park by a
section in the heart of London as part
of the post-war reconstruction scheme.
Already the British Union—half-
prepared by Hitler—have been examined
by government surveyors with a view
to their development in this way.
When plans cannot it will be found
that the importance of this airport
has multiplied many times over dur-
ing the years of war. It is well,
therefore, that a central airport should
have a prime claim in any reconstruction
plans for London.

No Need For Apology

MR. HERBERT MACKENZIE, British Home Secretary and Minister of Pensions, today told the British public frankly that they had no need of apology for the way in which the British government had acted in regard to the evacuation of British children from Germany. He said that the British government had acted in a most commendable manner in the evacuation of British children from Germany. EFFECTIVE NOW

BUTTER

IS RATIONED BY COUPON

The ration is one-half pound of butter per person, per week.

On and after December 31st it is unlawful to sell or buy butter at retail without the surrender of the proper coupon.

Brown coupon, Nos. 1 to 11, "Space C" from Ration Book Number 1 now in the hands of the public, are to be used for this purpose.

Each Brown coupon, Nos. 1 to 11, "Space C" entitles the holder to buy one week's supply. Only

Brown coupon, Nos. 1 to 11 "Space C" can be used for the purchase of butter.

Each coupon becomes good on a definite date and expires on a definite date . . . and can be used only within its prescribed period, no given date.

The system for butter is different from that applying to Sugar, Coffee and Tea, where coupons have an specified expiry date.

Dates When Butter Coupons Become Usable - and Expire

Coupon Number	Good for Purchase beginning on	Not Good for Purchase After
1 to 3	December 23	January 3
4	December 24	January 4
5 and 6	January 6	January 17
7 and 8	January 18	January 29
9 and 10	February 1	February 14
11	February 15	February 28
	March 1	March 14

NOTE: Brown Coupon No. 2, "Space C" will be good for one only during a 7-day period—December 26 to January 2. Brown Coupons Nos. 1, and 3 to 11, "Space C", can be used within 3-week periods.

Coupons for butter, like those for Sugar, Coffee and Tea (the red and green coupons) must be detached by, or in the presence of any seller of butter or his employee. If desired, consumers may lodge their

butter coupon sheets with their retailers, so that the latter may detach the required coupons when delivering.

Temporary Ration Cards

All Brown Coupons on Temporary Ration Cards issued to members of the armed forces on leave, visitors to Canada, etc., are good after December 31.

Butter Holdings Exceeding More Than One Pound per Person Must Be Reported and Coupons Surrendered

Consumers or non-registered boarding houses having in their possession the equivalent of more than one pound of butter for each person in the household, must before January 2, 1943, report their holdings to the nearest office of this Board. They must forward with their reports the number of butter coupons representing their butter holdings. If the quan-

tity of butter in possession of each person represents more than the eleven brown coupons in Ration Book No. 1, which will be good for butter, they must in their reports endeavor to detach from future ration books, additional butter coupons equal to the remainder of the coupons.

Special Notice to Retailers

On and after December 31, retailers must establish their right to purchase new supplies of butter from their suppliers by turning over to the supplier currently valid ration coupons equivalent to the pounds of butter ordered from the supplier.

Teas News

Mr. New returned to Teas-Fat today for a two weeks' visit with friends.

Mr. and Mrs. Don Wynn entertained at a supper Friday night and Mrs. Bob Hoffman, and Mr. and Mrs. A. M. Ross and Mr. and Mrs. Tom (Blackburn) and Howard and the evening as spent socially playing cards after which the ladies served refreshments.

Mr. Tom Blackburn left Thursday for Calgary on business and also to accompany Mr. and Mrs. Blackburn to the latter's trip to Vancouver where they will attend to business.

Don Wynn has been taking care of the elevator during Mr. Blackburn's absence.

Ray McKibbin who has been on a short leave with his parents Mr. and Mrs. A. McKibbin and Harry, left on Wednesday for Calgary on business.

If the weather permits and roads are cleared enough for travel, the ladies club road party will be held Friday night January 24th.

Long last week was not held, but will be on February 1st at the house of Mrs. McMichael.

On a good number of their parties, two almost had a truck and one almost had a truck, and one was getting through to the mines.

FOOD FOR FIGHTING MEN

Good nourishing food, and plenty of it, is an essential part of the soldier's diet. In producing enormous quantities of foodstuffs for our fighters, our army and navy, the people of Britain and other allied countries, Canadian farmers are engaged in a vital war work.

LOANS TO FARMERS... On loan and cash to get your farm in peak shape and to help you acquire the land and will be carefully considered by your local bank.

BUTTER CONSUMPTION TEMPORARILY REDUCED

It has become necessary to reduce the current rate of consumption of butter, and accordingly changes have been made in the dates on which (brown) spare "C" coupons of the current ration book may be used.

Spare "C" coupons 10 and 11 may not be used for the purchase of butter. Coupons 1 to 4 inclusive, have already expired.

Expiry dates for spare "C" coupons 5 to 8, inclusive, have been extended to aid consumers in stretching out the butter allowance over the period from now until February 28th.

Each coupon will continue to be good for the purchase of one-half pound of butter and will be good only on the dates specified below.

HERE IS THE NEW SCHEDULE

Coupon Number	Good for purchase beginning on:	Not good for purchase after:
5 and 6	January 18th	February 28th
7 and 8	February 1st	February 28th
9	March 1st	March 14th

The result of this is to reduce each individual's allowance by 2 2/1 ounces per week during the temporary period.

CONSUMERS WILL FIND IT ADVISABLE TO RATION
THEMSELVES SO THAT THEY MAY BE ABLE TO
STRETCH THE NEW BUTTER ALLOWANCE OVER
THE NEXT SIX WEEKS

CLIVE RED CROSS

The Red Cross Tea Room which has been in operation for the past three weeks has taken in \$14.32. The hostesses were respectively Mrs. E. I. Haystack, Mrs. W. B. Johnson, Mrs. Road, Mrs. G. Frostall and Mrs. M. Green.

The big annual Red Cross meeting was held last Friday evening at the I.O.O.F. Hall with well over 100 present.

The meeting was called to order with Mr. Martin in the chair and Rev. Furseter as secretary. After the reading of last year's minutes the financial report was read, which briefly summarized, was as

Mod Cross Drive	0042.75
Ten Moon	0000.00
Saltmen	0000.00

Donations from Clubs and Groups	\$122.25
Amount raised	\$1044.00

When expenses for tea room, sewing materials and knitting were paid there remained \$211.00. It was voted to donate \$50 of this to the Childrens Hospital in Calgary to aid in the purchasing of X-Ray equipment.

Reports from all the groups were heard, and in the Indian division it was learned that 200 knitted articles had been made and shipped out 1102 articles of hospital supplies and civilian garments of which there were 53 quilts, making a total of 1661 articles shipped from Oliver to the Red Cross in the year 1942.

The following are the officers and executives elected for the current year:

Pres., Mr. Martin; Vice Pres., Rev. Gibson; Sec. Treas., Rev. Forester; Civilian Clothing, Mrs. Hoold and Mrs. Standman; Hospital Supplies, Mrs. Disher; Recording Secretary, Mrs. Weston; Tea Room, Mrs. McLeod; Mrs. W. R. Johnson, Mrs. Burton, Mrs. H. Monroville, Mrs. Reed and Mrs. Bely. Quilt Committee: Mrs. Coote, Kullberg.

The business meeting was adjourned and the fun began when the cooks, 7 in number, and 7 waiters were brought in and introduced. It seemed that we should know them all, but for the night they were all important chefs and waiters from countries across the ocean, travelling by plane and submarine, just to be present for this great occasion.

The English Plum Pudding was brought in, in all its traditional style, but when it blew up in their faces, a saboteur was found lurking in the kitchen and was condemned to be shot the execution taking place immediately.

The seven courses were served by the men. The last course was four War Rationing Stamps, the winners being little Miss Simpson, daughter of Rev. and Mrs. Simpson, Leacomb, Mrs. Higgins, Miss Cora Jean Martin and Mr. F. Munn.

The singing of the National Anthem completed the evening.

Handled Out
-but John Freeman looks sinister

"I've sure handled out. But I've got no idea," John Freeman put across the deal from his back manner in a small private town. John's eyes twinkled but his mouth was grim. "Idea's about all I have got" he added.

The banker knew John, a hard-working, honest, shrewd private farmer, a fighter. "Let's have your idea," he said.

"I'll take funds, plenty of funds, and I haven't any, not now," said John. "But listen." The banker listened.

"I know funds," said John, when he had finished. "It'll work—if you'll make use."

The banker smiled him. With a considerable loss from the bank, John brought funds made and furnished them on his barren-down fields. He also brought the ruined crops of several adjoining farms and turned his stock to grass there. And John was his reward with misfortune.

Because of the bank's confidence in John Freeman's integrity and judgment, loan was turned to gain. And not only for him. The neighbors got ready cash for crops which otherwise would have been a total loss.

Through this farmer's name was not "John Freeman," the fact in this story was true. It is typical of the thousand ways in which Canada's Chevered Banks aid credit-worthy people in all walks of life to profit from their individual enterprise and industry.

NEW SEEDLING STRAINS
Wanted

Using to publicity from the University of Minnesota regarding a new strain of wheat that is resistant to leaf rust, there has been a great demand for further information.

Actually, there are several strains, the best of which has yet to be selected. They have been developed by successive "back-crosses" of Thatcher's Hope hybrids to Thatcher. The aim was to transfer the leaf rust of Hope to Thatcher, and we have every reason to believe that the efforts of the Minnesota plant breeders have met with a large measure of success. They are about to begin increasing one of the new back-crossed strains.

The strain which will probably be increased has not been tested in Canada, but two others of this group were in variety tests in Western Canada in 1934. They gave higher yields than Thatcher's Hope, where leaf rust was abundant; but, in the absence of the disease they yielded somewhat less than Thatcher. Under leaf rust conditions, they yielded no better than did Thatcher and some new selections from crosses between Rugged and Thatcher land at the Dominion Plant Research Laboratory, and now under test. Seed of the new Minnesota strains will not be available for at least one, and probably two years. In cross subject to leaf rust disease, farmers should grow Rugged, or Rugged, and note over they can seed derived from registered strains. Both Rugged and Rugged have been greatly improved by selection since first distributed. Every farmer growing these varieties would do well to get a start with registered stock.—Communicated by Dr. C. C. Giesbrecht, Senior Agricultural Scientist, Dominion Plant Research Laboratory.

Canada's War Workers

With the aid of the bank Hunter helped to provide urgently needed homes for war workers. He has now paid off all but \$100 of the loan. A very small amount paid out for interest has thus enabled him to more than double his former revenues.

Such modest, highly useful loans typify the contributions that the banks make to Canadian enterprise. The above story is an actual case—only the name has been changed.

Canada Fights Inflation

WHILE INFLATION has been the subject of much discussion in the past few years, it is now becoming a more serious problem for the people of Canada. Inflation is a rise in the price of goods and services, and it is a problem that affects everyone. Inflation is caused by a number of factors, including an increase in the money supply, a decrease in the supply of goods and services, and an increase in demand. Inflation can be controlled by a number of methods, including increasing the supply of goods and services, decreasing the money supply, and controlling demand.

Cost Of Living Increases Slow
The cost of living in Canada has risen very slightly during the first half of 1961. According to the latest report from the Statistics Canada, the cost of living index for the first half of 1961 was 100.0, compared with 99.8 for the first half of 1960. This indicates a very slight increase in the cost of living over the past year.

Further Price Controls Likely
The government has announced that it will continue to control prices of essential goods and services. This is done to prevent inflation from getting out of control. The government has also announced that it will continue to control the money supply, which is another way to control inflation.

PATRIOTISM IS NOT RATIONED IN ALIX

Let's Each Buy MORE Victory Bonds

It looks as though this community will sit and let the quota of Victory Bonds which we were expected to buy. That's fine, but let's not take this for granted. LET'S MAKE SURE THAT OUR QUOTA WILL BE OVERSOLD.

As a matter of fact, there should be no quotas in connection with the sale of Victory Bonds. Until the war has been won there can be no halting - no resting for any of us. We haven't won the war yet.

Our fighters are not working on a quota basis. They are "all out", doing everything they can to get the job done.

So, if we give this matter proper thought, each of us will buy MORE Victory Bonds. We will buy all we can for cash, and we will buy more - on the installment plan - all we can pay for in the next six months. If necessary, we will have to do it.

It is safe to say that all ovals come in the same named above and he would not guarantee that any of them are already received nearly 800,000 samples, and whether, the Liaison Government laboratories have tested large numbers.

However, the total laboratory facilities in the West are inadequate to handle all seeds which should be tested. Farmers who have not already had their seeds tested would be wise to make them now.

We are having single printed giving detailed instructions for making home grainmills here. One of these will be found in all country elevators of Line Companies associated with the work of this Department. The same information will be printed on the "Seedtime and Harvest" leaflet distributed to grain buyers for passing on to their customers.

Roughly speaking, seed germination is 55% or over is O.K., from 65% to 85%, rate of seeding should be increased, less than 65%, seed should be reduced.

Farmers unable to reach a decision unanimously may appeal to the board by directly to the Agricultural Board, The North-West Land Association, Winnipeg (see Calgary).

FEDERS' DAY

The Department of Animal Industry, University of Alberta, has announced the annual Feders' Day to be held in the first class pavilion, University Farm, on Saturday, June 15, commencing at 10:00 a.m.

In view of the special interest at this time to the production of livestock and animal products, this year's program should be of special interest. The reports and discussions will be based on the results of experiments that have been in progress during the past year. This includes a comparison of different breeds and protein supplements for swine, the use of winter wheat and home grown feeds for cattle finishing, the use of wheat for feeding dairy cows, together with the value of wheat in the winter ration for pregnant cows.

Farmers and cowboys will find it worth while to visit the University on June 15, and take part in the demonstrations.

Lunch will be available.

SALVAGE MATERIAL

PRIORITY LIST

The urgency and importance of salvage materials varies so much from time to time that the Salvage Priority List will probably appreciate some official guidance in its composition.

The Salvage Priority List might be set forth as follows, at the present time, as applying to all Salvage Committees throughout the Dominion:

1. Fats and Bones in production of glycerine for Explosives and other materials for war industries, Canada needs 20,000, 20 pounds of rendered fat from laundries, hotels and restaurants, large institutions, courts or hospitals, etc., and military establishments. This objective represents approximately one ounce per Canadian per week.
2. Old Tires and Tubes, of which 10,000 tons are urgently required by the end of the year.
3. Scrap Metal of all kinds, and particularly the non-ferrous types, Brass, Bronze and Copper.
4. Bags of all kinds, and particularly Cotton bags for use as Wipers for Military Use and War Industries.

This listing is not to say, of course, that other salvage materials are not to be collected in so large quantities as possible where Committees have ready means, but it is to emphasize that the materials listed above are particularly urgently required for collection in the immediate future.

ALBERTA MAN HAS AN ENGLISH UNIVERSITY COURSE

"I can see great results coming from University courses for the youth of the Canadian Dominion over here," said Mr. H. K. Parkie, of Altx, Alberta, after he had spent a week at Birmingham University with twenty-one other Canadians serving in England.

The course was arranged for Canadian Servicemen on leave by the University authorities in cooperation with the British Council, and it aimed to show the visitors something of the life of England's armed city.

"I am not a student," said Mr. Parkie, "I am a soldier, and I am in a very different position from the Canadian students. We were told that a lot had been learned from a lot of the war."

Mrs. Warren, Mr. Andrews, Mr. Smith and Miss Marguerite Smith took in the show "London Harvest", at Big Bear, on Saturday.

The Altx soft ball team did not have good luck in the "London Harvest" on May 25th, but hope to win a game for themselves during the season to come.

These go your letter to your boy...

Fit, you put on his shirt that you know he won't wear... and he'll also put your hair. You need it with a prayer that it might find his side and well.

Look—It's already on the way... spending as fast as railway wheels can carry it.

Those slugging wheels carry more—much more—than letters. They carry food for your paunch, coal for your furnace. They tell directly that you may live in comfort. They run across the great stretches of this Dominion with the men and materials of war, so that all of us may live in freedom.

Twenty-four hours a day our railway wheels are rolling, driven by an army of over 150,000 men serving two major fronts—the home front and the fighting front.

"Keep 'em rolling" is their watchword, whether it's food or fuel, tanks or troops.

Or just your letter to your boy...

LOCAL AND OTHER ITEMS OF GENERAL INTEREST

Following is a copy of a memorandum recently sent in from the district to the Western... We would appreciate co-operation by other districts in sending in similar resolutions.

"Whereas the Western Union and Trade Board passed the following resolution recently adopted to 10 lbs. per person and... Whereas this is inadequate for farm requirements, and in order to secure adequate supplies of foodstuffs to be enjoyed by city women, yet have to prepare weekly additional meals throughout the year for farm help for which no provision is made... Whereas the health of the nation must be maintained, for which purpose, balanced meals must be provided;

Therefore be it resolved that the ladies of the Neysa district hereby request the Western Union and Trade Board to make such changes in the aforementioned resolution as will enable farm families to have a more adequate supply of foodstuffs for farm requirements.

Be it further resolved that the said Board proceed immediately to the said changes, and that the said Board make such changes in the said resolution as will enable farm families to have a more adequate supply of foodstuffs for farm requirements.

CARD OF THANKS
We wish to express our sincere thanks to the many friends and neighbors who have been so kind as to send us so many beautiful cards and letters during our recent illness. We are very much obliged to you all.

A very pretty wedding was celebrated at the Anglican Church at Lacombe, on Saturday, May 25, when Linda Colquhoun, daughter of Mr. and Mrs. C. J. Thompson, was united in marriage to Mr. W. G. Halliday, son of Mr. and Mrs. W. G. Halliday.

The wedding of the bride and groom was an afternoon frolic of love and merriment, with much singing and dancing. The bride was attended by her sister, and the groom by his brother. The ceremony was performed by Rev. Mr. Mitchell.

The groom was attended by George Harris. Following the ceremony a reception was held for the guests, after which the happy couple left by train for Calgary. The marriage was celebrated for two weeks.

Ripley News

Friends of Mr. and Mrs. Brinde and family will regret to learn of the passing of Mr. Brinde at his home in Calgary, B.C. on Monday, May 28, at the age of 70 years. Mr. Brinde was a well-known citizen of the district and was a member of the Anglican Church. He was a native of England and came to Canada in 1880. A Matter Of Age

By 1971, New York City was one of the cities in the nation where the birth rate was declining by a young married man, he recalled his girlfriend, Margaret Ann, was already back in the May-June issue. "I was told to use it to show me this home," said Craschewski interrupted. "How do you put this in the new year?" The NEW YORKer asked the American. "It looks so old." "It was built in 1977," the host informed, but nevertheless it is the "new one."

Caves of perpetual ice are found under lava flows in Western New Mexico. Although the summer temperature may reach 100 degrees, the ice in the caves does not melt.

The story thought had been King Tom, though he was far from a monarch. He had been jumping his old, but loyal jumping horse and his wife into it a good long while. "I want to make a living for myself," Paula, seemed very certain about going back on the stage. "Paula is an awful nerve and I'll follow in her with you," he said back. Then all at once she said, "No, he's just a selfish man. You should tap into him from your bleeding heart."

At once, the door opened. It was the Vicar. What an exciting day for the past office, he hurried away, a telegram had come, a telegram for Smith. Why the whole was in a froth.

The message was from the Editor

They were making Smully an offer of a permanent staff position, but he must leave immediately, and he'd be there the next morning. Overjoyed, Smully began packing his bags. Finally he was ready. He'd be staying at the Great Northern Hotel. He was near the railroad station. Fear wasn't to worry. Everything would be all right. YOU MUST HAVE
1942 INCOME TAX RETURN
LATER THAN JUNE 30TH
... IF SINGLE and your net income exceeded \$4000
... IF MARRIED and your net income exceeded \$7000

For income over \$3000 get new (2) copies of simplified Form T. 1 Special.
For incomes over \$5000 get new (3) copies of Form T. 1 General.

Income Tax dollars are not ordinary dollars... they are Victory dollars... necessary dollars to help win the war. Income Tax is fair to all. All are taxed in proportion to their ability to pay.

Under the new system introduced this year, Income Tax is now on a pay-as-you-earn basis. The reduction of 1942 Tax made this possible.

In most cases the larger part of the reduced tax will have been paid by the 1942 tax deductions or instalment payments. One-third of any balance must be paid by 30th June and the remainder on or before 31st December, 1943.

You must file as Income Tax return and pay any balance to establish your right, after the war, to the refund of the Savings Portion of your tax.

FARMERS

You must attach to your return on Form T. 1 Special or Form T. 1 General either a statement of your gross income and expenses, or completed Form T. 1 Supplemental. The T. 1 Supplemental contains a list of farm receipts and expenses, and is to be used for determining the amount of farm income. Farm income may be secured from your local Post Office or District business office.

To help you fill out your Income Tax return a booklet "Farmer's Income Tax Guide, 1942" has been prepared to cover questions which may apply to farm operations. It can be obtained free on request from your nearest business office. If you don't know his name, just send your letter to "Minister of National Revenue, Ottawa."

Science And The War

IT IS GENERALLY KNOWN that scientific discoveries are important in modern warfare, and the recent contributions of British scientists to this connection have been most interesting and important. The British Ministry of Information has published some facts concerning progress made in scientific work in Britain relating to the war, but we are told that "the very first fact that can be revealed concerning scientific developments and discoveries at least has never been made until the war is over." Nevertheless, the first thing that we can learn from the facts of the scientific work which scientists are doing to reach the better and knowledge of war.

Radio Location Is Important

One of the most outstanding scientific developments of the war is the use of radio location. It is said to be the most important scientific discovery made in the war, and it has been the most closely guarded secret of the war, but it is known that it is one of the most important scientific discoveries made in the war. The British Ministry of Information has published some facts concerning progress made in scientific work in Britain relating to the war, but we are told that "the very first fact that can be revealed concerning scientific developments and discoveries at least has never been made until the war is over." Nevertheless, the first thing that we can learn from the facts of the scientific work which scientists are doing to reach the better and knowledge of war.

Advances Made in Medicine

Many progress has been made in the field of medicine in the war, and this has contributed to the success of many campaigns. The British Ministry of Information has published some facts concerning progress made in scientific work in Britain relating to the war, but we are told that "the very first fact that can be revealed concerning scientific developments and discoveries at least has never been made until the war is over." I enjoy a good breakfast... a breakfast brightened by KELLOGG'S ALL-BRAN muffins! They're delicious, they're satisfying and there's a good natural laxative

What's more, ALL-BRAN gives you valuable carbos, hydens, proteins and minerals that the body needs... supplies them in a delightfully crisp, tasty cereal that also gets at the cause of constipation due to lack of "bulk". To keep regular naturally... eat several ALL-BRAN meals daily or eat ALL-BRAN as a cereal daily... drink plenty of water... and see if you don't agree it's a "better way".

PETERSON - ROUSE

The United Church was the scene of a pretty wedding on Sunday, June 26th, at 10:30 a.m. when Robert Peterson, son of Mr. and Mrs. C. H. Peterson of this city, was united in marriage to Evelyn Rouse, daughter of Mr. and Mrs. E. J. Peterson of this city. The ceremony was performed by the Rev. Dr. J. H. Peterson.

The bride looked prettily in a gown of white, and carried a bouquet of white flowers. The groom wore a suit of dark blue. The ceremony was a simple one, and the wedding was a quiet affair.

The bride was given away by her father, Mr. E. J. Peterson. The ceremony was a simple one, and the wedding was a quiet affair.

YELLO CANADIAN I could like to remind the two million taxpayers of Canada that their obligation to file a 1947 Income Tax Return before the 30th of June.

Income Tax is fair to all, as each person is taxed in accordance with his ability to pay.

There is no easy way to win a war. Almost half the costs of this war must be paid by taxes. I know that the Income Tax is not a pleasant burden, but I also know that it is the pleasant burden.

SETBACK

Alx and district were shocked Saturday at the news of the death of Chas. Thomas, one of the sons of Mr. Chas. Thomas, of the Thessalon district.

Chas. and Billy Goodman were both working together in Alx, and had bought a house by a grocery dealer at a show, and he was going home as it was too wet to harvest. Billy had made the trip down the field and was returning to the lighting strike just as Chas. came across the granary with his tractor. Billy was the tractor running away and ran to stop it, but was unable to quite reach it, when Chas. died off the platform and the tractor had passed over him. Death was instantaneous.

Chas. was born in the Thessalon district, and was 22 years of age, and lived with his mother on their farm.

Chas. will be greatly missed by the young people of the district as he was the leader in all social life, being, popular and a great deal of fun. He was a member of the United Church of Canada, and was a member of the Thessalon district.

Funeral services were held at the United Church, Alx, on Monday at 2:30, Rev. G. Thomas of Lacombe officiated.

Interment took place in the cemetery at Thessalon, on Monday at 10:30, Rev. G. Thomas of Lacombe officiated.

The concert is one of the ways in which British attempts to relieve the drabness of war for people who are stuck in the trenches. It is the only place where they can go to the theatre or to a beach or swim in the summer, or to dance or to sing. They are allowed to have a few cigarettes and a little beer. The British army has a special band of musicians who play in the trenches. They are the only ones who are allowed to have a little beer. EFFECTIVE SEPTEMBER 2nd PRESERVES and SWEET SPREADS ARE RATIONED BY COUPON

The products affected include: Jams, Jellies, Marmalades, Extracted Honey, Comb Honey in Squares, Honey Butter, Maple Syrup, Maple Butter, Maple Sugar, Molasses, Corn Syrup, Cane Syrup, or any blended Table Syrup, Apple Butter or Canned Fruit.

On and after Thursday, September 2nd, 1943, it is unlawful for a consumer to purchase any of the above-listed products, except on the surrender of a valid ration coupon.

Coupons "A" and "B" Book 3 are to be used for this purpose. Coupon "A-1" becomes good September 2nd. After September 16th, two coupons become good every four weeks.

These products are being rationed so that there will be an equal sharing of the available supplies. Persons who do not use the coupons for these products may use them to acquire more sugar in addition to their regular sugar ration and receiving sugar allowance.

ONE "D" COUPON IS GOOD FOR

Not More Than

Jams, Jellies, Marmalades, Extracted Honey, Apple Butter, Maple Butter or Honey Butter	6 FLUID OZS.
or	
Maple Sugar or Comb Honey (in Squares)	1/2 LB. NET
or	
Molasses or Maple Syrup	10 FLUID OZS.
or	
Corn Syrup, Cane Syrup, or any Blended Table Syrup	12 FLUID OZS.
or	
Canned Fruit	13 FLUID OZS.
or	
Sugar	1/2 LB. NET

When purchasing goods in containers, it will not always be possible for the consumer to get the exact coupon value.

EXAMPLE: If you are buying jam in containers—

One "D" Coupon is good for one 4, 8 or 6 oz. container or two 3 oz. containers.

Two "D" Coupons are good for one 7, 8, 9, 10, 11 or 12 oz. container, or two 6 oz. containers, or three 4 oz. containers.

or any combination adding up to not more than the total value of the coupons permitted

SUPPLIES—Separate instructions which are similar to the regulations of applying on sugar rationing are available from any branch of the Ration Administration, for quota users, industrial users and suppliers.

The elevator agent's job is by no means a simple one. He must be a good driver and a good runner. He must be a good runner. He must be a good runner. He must be a good runner.

We have read a lot about the sacrifices made by this group of the group in the war effort. He must be a good runner. He must be a good runner. He must be a good runner.

Most of our readers know that country elevator concern which in war time and Red Cross drives, have organized and carried out a magnificent scrap metal campaign, form a "scrap" link in 1941 farm labour scheme, serve as distributors of pure seed at considerable expense, handle demonstration plots of field crops, offer various services such as garbage collection, and so on.

Yes, the end more; but how many realize that the bulk of the burden falls on the shoulders of the elevator agent? As usual, the busy man finds time to help. The very essence of democracy is voluntary effort. These men are democrats.

KNIGHT-BRAWNER

A quiet but very pretty wedding ceremony took place at the home of Mr. and A.D. Sawyer, of Twin, on Sunday, Sept. 28th at 10 p.m., when their eldest daughter, Mildred Brawner, was united in marriage to Pm. Englund John, son of Mr. and Mrs. Frank Kallala, also of Twin. Her former of Olive, officiated.

The bride, entered in a heavenly gown, carried a bouquet of white flowers on the arm of her father. She wore a costume of half-sequins and had only one costume a lovely headdress, made by herself.

Her sister, Miss Elvira Sawyer, in a very smart dress with white accessories, was her bridesmaid, and A.D. Sawyer, brother of the groom, was best man.

The ceremony was performed under a canopy of white streamers and was over before 11 p.m. The bride and groom were accompanied by their parents and other relatives and friends.

During the evening of the wedding Miss D. Pomeroy, Mrs. E. Kallala and Mr. E. Pomeroy were of the party.

A lovely bride's supper was served to thirty-two guests.

The bride's table was covered with a white cloth, backed with pink and white flowers. The happy young couple left after by train for Calgary on a honeymoon.

FABRICATED boundaries are today the urgent need of preparing their homes over against this winter's cold storms. They are strong now!

HEATING SYSTEMS MUST BE WORKING: HEAVY DROPS IN TEMPERATURES

Here are some jobs you should be doing now!

1. Have your heating system inspected. Check chimneys, pipes, radiators, etc.
2. Have your furnace thoroughly cleaned by a competent man. Do not depend on your own cleaning.
3. Be sure that you have sufficient extra wood and that all windows and doors are tight. There must be no leaks.

Many homes were built on 50% of their full strength heating system. Insulation is essential for safety. Heat loss is the most common cause of winter 1.

NEW SCHEDULE PRESERVES RATIONING

EFFECTIVE SEPTEMBER 30, 1943

Preserves rationing gives the consumer a number of choices both of products and class of containers. Because of the wide range of container sizes and the variation in buying habits across the country it was necessary to put the system into operation and then make adjustments on the basis of experience.

Now that preserves rationing has been in effect for several weeks, it is possible to make some increase in coupon values. The new schedule is announced below and is effective September 30th.

The new doubled value allowances for molasses, extracted and comb honey will enable consumers in areas where consumption of these products is heavy, to buy more and still leave enough for districts where the total demand is light.

The increased value allowances for corn, cane and blended table syrups and maple syrup are adjusted to bring coupon values more closely into line with the great variety of container sizes now in use.

Feature Presentation of Fur Coats under the direction of Mr. Enders Chervier. Presentation comprising over 400 garments, on display in

EATON'S STORE, RED DEER, FROM Noon Thursday, October 21st, until Noon Wednesday, October 27th.

This year's Furs have attained a new practical rating. They are no longer on the lovely, luxurious side of fashion alone. Today's Fur Coat (lovely and luxurious, still) must be designed for 24 hour duty. They must have "Durability" quality. That's what you'll find in the Fur Fashioner Mr. Chervier is bringing to Red Deer.

KEEP THESE DATES IN MIND: Noon, Thursday, October 21st, until noon, Wednesday, October 27th.

And remember there are three ways to buy:

1. CASH

2. EATON'S

3. EATON'S PLAN

According to Warrant Prices and Trade Regulations.

CHAPTER FIVE

It was about a week later that the family returned. The mother, who had been in the hospital, was now home, and the father, who had been in the hospital, was now home. The children, who had been in the hospital, were now home. The family was now together again.

THE CHARTERED BANKS of Canada keep abreast of the Dominion's expanding needs.

Six times since 1870 the Bank Act under which the Chartered Banks operate has been revised by parliament—six times in that period the activities of the banks have been constantly stimulated by the people's representatives.

Every ten years the Bank Act has been thus revised. Each one of the six decennial revisions has contributed much to the evolution of the banking system to meet the expanding needs of a developing Dominion.

In 1924 the sixth revision of the Bank Act was enacted. Its main aim was the stimulation of the Dominion's economic development.

Through numerous supply and demand, the Dominion banking system has grown and been adapted to meet the needs of the people's prosperity and to supply for savings and a sound basis for Canada's economic development.

made up the committee, which considered witnesses—among them bank officials, government officials and reformers—and studied exhibits filed by various individuals and organizations. Findings were submitted to the House, and later that year the Bank Act was revised in many important particulars.

Basic English

DISCOVER AMERICAN ENGLISH in **Basic English**, a recent address delivered at Harvard University, referred to Basic English as the possible international language of the future. Since that time there has been considerable progress in this movement, and the following is a summary of the progress. Directed primarily by Dr. G. O. Gimson, director of the Orthoepic Institute at Cambridge, England, the movement has been directed to make Basic English an extremely simplified form of English, so as to speak it. The language is said to have been simplified to such a degree that it can be learned in only five days. Of these, five days means, 100 air verbs and the remainder are made up of adjectives, pronouns and the other parts of speech. In it, everything unnecessary is dropped, and the words that are retained, just as Mr. Churchill pointed out, the whole vocabulary can be put down on one sheet of a single sheet of paper. The language is said to be so simple and so easy to learn that an average person can master Basic English by devoting two hours of study each day for a month.

After the hard work of mowing the summer on a victory stand, you will want to be certain that the growing vegetables will not perish from the heat. The best way to protect them is to cover the beds with a white muslin if a few simple rules are carefully followed.

For a storage house—any part of the cellar with a window looking out on the garden—cover the window with a white muslin. The muslin should be spread out occasionally to maintain the proper moisture content. The muslin should be changed when it becomes soiled and a new sheet tied down to provide an even temperature. Containers for the seedlings should be constructed against the outside walls and the floor covered with straw.

for the evening was spent in
joking and conversation for most
of the afternoon with Miss
Walker and Mr. Holland at the
piano. A delightful lunch fol-
lowed. Mrs. J. R. Holland
played the wedding march as
the bride-to-be entered gram-
matically to the table and proceeded
to open her lovely assortment
of gifts.

Last Wednesday evening a
shower was held at the home
of Mrs. Dora Hansen for Miss
Lillian Walker. The first part
of the evening was spent in
joking and conversation put on
by Mrs. J. Rasmussen. Following
this Mrs. J. Rasmussen presented
Lillian with a table linen with
many beautiful gifts. The evening
ended with the serving of a
delicious meal. A good time
was had by all.

last Saturday afternoon.

MECHANICAL-DYE

A very pretty wedding was
celebrated at the United Church
in Lacombe on Saturday No-
vember 27th at 4 o'clock, by
Rev. L. A. Thompson when
Miss Dorothy H. Hargrave of
Mrs. V. Dye and the late Mr. H.
Dye were united in marriage to
Mr. and Mrs. Fred McInchessie
of Alix. The bride was accom-
panied by her sister, Patricia
Dye of the U.W.A.C. who took
of smart in her service uniform
and wore a corsage of red and
white carnations.

The groom was attended by
Mr. Andy Marry.

The bride and groom's
corsages were a corsage of
pink and white carnations.

During the signing of the
register the organ played "I
Love You Truly."

The groom's gift to the bride-
maid was a gold locket with
the G.W.A.C. emblem and to the
best man a leather billfold.

A reception was held at the
home of Mr. and Mrs. E. H.
Hargrave, a sister to the groom,
where the guests partook of
plates of a delicious buffet
supper. The three first brides-
maids looked lovely with
decorations of pink roses and
green and white carnations.

The bride and groom were
presented by the bride-
maids with a bride and groom.

A toast to the bride and groom
was presented by Mrs. Nivick
and was responded to by the bride-
groom.

They received many beauti-
ful and useful gifts.

The happy couple left for a
short honeymoon. For travel-
ling the bride wore a grey
tweed coat with a black hat and
matching accessories.

They will make their home
the groom's farm south of
Alix.

Those present at the recep-
tion were Mrs. V. Dye and
Mrs. Fred McInchessie; Mrs.
B. Hargrave; Mr. and Mrs. Ed
Hargrave and Lillian; Edna,
Betty, Roger and Robert Dye;

Eclipse News

The ladies of the Eclipse district, gave a delightful afternoon on Thursday afternoon at the home of Mrs. Inez Brown in honor of Mrs. Helen McLaughlin (nee Dorothy Day). Card tables were arranged in the hall and the ladies enjoyed the game of Australian Billiards. First prize going to Mrs. Brown. Wm. McLaughlin, second prize to Mrs. Inez Brown. A lovely luncheon was served after which Mrs. George Bell, the hostess of the ladies in a few well chosen words accompanied the bride and presented the gifts. Mrs. McLaughlin thanked the ladies and invited them to come and see her. We received many lovely and useful gifts.

Mr. and Mrs. Inez Brown are now in the hospital. Mrs. Inez Brown is recovering from her illness. Mrs. Inez Brown is recovering from her illness. Mrs. Inez Brown is recovering from her illness.

I stop and turned the eye to the side of the exhibit. The girl backed against the desk She was obviously trying to arrest from Jonathan the object of his gaze. He was staring her situation. But Jonathan had glimpsed already his own error and the girl continued over the little table top.

"Well, my girl," Jonathan smiled to her. "You Sir Maurice paid me too little that I must steal from you. Or have you really some explanation for your presence in my quarters?"

The girl lifted her hand and slowly removed the mask from her face. "It did not come to steal Jonathan."

The man stared, speechless.

"So need to explain, Master Jan." I know how you have achieved all the significance in which I live. When you entered the world, it was as you would to turn me over to the mother as if you were the child, and I have a story for your wish. Jan." "Can you be so kind to check—'An' what do you mean?'" "For answer she turned, lifting the unguiped form, holding it up to be viewed the arched, laughing, stamped into the leather—'You are not dead, the French words for him and translated—'Every man to his lot, and I have a story for your wish, Jan.'"

BANKING IS ADAPTABLE

...it changes constantly to meet
this country's changing needs

FOR INSTANCE...

Ever wonder where your ration coupons go? The answer is that your grocer takes your sugar, butter and other coupons to his bank, which acts as the government's agent in identifying and accounting for millions of spent coupons. This vast bookkeeping job—known as "Ration Coupon Banking"—is just one of the new, additional assignments which the banks have assumed as part of their wartime service.

Another is the payment, on behalf of the government, of certain subsidies taking out of war-time price control. Still another is the handling of exchange transactions as agents of the Foreign Exchange Control Board.

At the same time the banks have arranged facilities to serve military establishments and new war-industry centres alike.

Through loans to industry and agriculture, they have helped to increase the supply of raw materials, weapons and food.

They have acted as banks, agents for approximately \$5,700,000,000 worth of Victory Bonds and War Savings Certificates, as well as leading direct financial aid to the government through short term loans.

...All this in the face of widespread and changing needs from an outgrowth of 8,360 United bank employees.

The war emergency has proved the adaptability and ability of Canada's banks to adjust their services to new conditions. It has proved, once again, the strength of your banking system, which is providing a firm base of financial service for the greatest country since the nation's history, and will with equal adaptability meet the challenges of the years ahead.

SINCE THE CALL TO ARMS

SINCE the issue of the opening of hostilities the Canadian National system has been proved to be the largest and one of the most efficient in the world. This job has continued day and night without stop for four and a half years.

SINCE the issue of the opening of hostilities the Canadian National system has been proved to be the largest and one of the most efficient in the world. This job has continued day and night without stop for four and a half years.

THE SYSTEM not only has met the increased demands of war, but brought in the new materials to make them. Without this system, the Canadian National system would not have been able to meet the increased demands of war, but brought in the new materials to make them.

OF THE 100,000,000,000, a high percentage consisted of materials of the United States, brought in the new materials to make them.

STRENGTH OF THE SYSTEM, though reduced in volume by shipping through other routes, has been greatly increased in the war in military and civilian, brought in the new materials to make them.

CANADIAN NATIONAL SYSTEM and Telegraph facilities have worked in regularity to meet war demands.

THE Canadian National's, since the war, has been proved to be the largest and one of the most efficient in the world. This job has continued day and night without stop for four and a half years.

OF THE 100,000,000,000, a high percentage consisted of materials of the United States, brought in the new materials to make them.

THE CANADIAN NATIONAL, since the war, has been proved to be the largest and one of the most efficient in the world. This job has continued day and night without stop for four and a half years.

TRANSPORT for a NATION AT WAR

The Canadian National has been privileged to join with all the citizens of our country, including those who are serving in the armed forces, in the prosecution of the war. It believes that Canadian will be measured in this service of the cause of the Empire's war effort.

Excerpts from Annual Report of the Director of the Canadian National System:

OUR ORIGIN IN 1900, as in other war years, was to place the full strength of our manpower and facilities behind the war effort of the United Nations. To this end all energies have been directed. The equipment of the armed forces, of industry and agriculture, for transport and other services, have been sent in all of the other branches of the business and in the important sections of the United States in which we operate.

MOVING TRAFFIC

These demands were greater than ever before. The traffic moved in 1943 being 17.2% greater than in 1942, the greatest peak year yet, and 45.7% greater than in 1940, the peak year year.

Freight traffic in 1943 was more than double that of 1940, and passenger traffic four times that of 1940.

Despite this, the very large movements of war materials and personnel reached their destinations in accordance with schedule arrangements. There was no lowering of the toughest standards of safety.

MAINTENANCE OF EQUIPMENT

The Company also extended its activities as a maintenance of machines, ships and naval appliances.

FINANCIAL POWER

The financial operations of the Company, the railway system, which is one of the largest in the world, is one of the largest in the world, is one of the largest in the world.

After providing for reserves for all operating expenses (including federal contributions, depreciation, amortization of defense equipment and reserve for insurance) and also a reserve for pension contributions, taxes, interest

THE OFFICERS AND EMPLOYEES in all departments of the system have worked hard and loyally to cope with increased responsibilities arising out of the war, and the directors reward their opportunities and thanks. The traditional business relations between company and employees were maintained throughout the year. Agreements also are agreed to ship, the standing public after for their cooperation in not participating in activities of different operating conditions caused by the war.

an unpaid debt and Government loan, the capital paid to cash to the Government was \$2,000,000.

OPERATING EXPENSES

The operating costs for the year was \$2,000,000 (an all-time record) as compared with \$1,500,000 in 1942 and \$1,000,000 in the peak year year of 1940.

It is interesting to note that the rapidly increased war traffic in 1943 was handled with 14,000 fewer locomotives, 10,000 fewer freight cars and 1,500 more passenger cars than was the traffic of 1942, the fourth year of the last World War.

GENERAL OPERATING PRINCIPLES

The Company has continued to being interested in providing extensive travel and other services for Prime Minister Churchill, President Roosevelt and Nelson Ching Kai-shek during their visits to Canada in 1943.

POST-WAR

Though conditions will not be the same of railway operations and new types of services, and there must be a continuing need for improvement in all aspects of the railway industry. In view of this, the Company is to find a program of research, this program is to continue to maintain a program of improving service and efficiency, operations, the company has the problem of maintaining and maintaining.

Medicine At War

CASELITES ARE INEVITABLE in time of war and it is reasonable to expect that because of the great alterations made in medical means to prevent war the medicine also would be changed. This was proved by the British Ministry of Information about the British Picobac. The British Ministry of Information said that it was not until the war broke out that the British Ministry of Information was inspired by the war and in so doing that before the war the idea of smoking pipes was regarded as quite natural in British official circles. LOCAL AND OTHER ITEMS OF GENERAL INTEREST

The Domestic Coal Situation

We have just experienced one of the mildest winters this Dominion has had for many years, if any to equal. That has been a great saving on all kinds of coal, and we are now faced with idle days in our domestic industry.

January 31, 1934, found all domestic mines fully caught up with back orders; the first time in 21 months. (Going back to April 1, 1913, which is the seasonal date at the beginning of the last 14 seasons, all our mines, including small gopher holes, including all January 31, 1934, except for the small break down and the short strikes occurring in May and October.

Even with this steady expansion in the 10 months from April to January, inclusive, and with the favorable weather conditions, we were only then able to catch up with a large amount of back orders remaining unsatisfied.

Now what would have happened if we had had a normal November, December and January?

We must not allow these mines to have any more idle production. Now is the time to contact all your dealers, bus, hotels, schools, public buildings and consumer public, urging them to purchase coal for domestic purposes immediately. It is up to you to protect the producer and consumer.

Your co-operation, please. W. J. TAYLOR, Regional Admissions Officer of the Coal Controller.

Alta Athletic Association

At a meeting of the Athletic Association on Thursday, April 19th, plans were made for the summer activity. A league of three or four soft-ball teams is being organized. It was planned. The possibility of an indoor league to include rural teams was discussed, and it was decided to invite Mr. Bob Whitfield, secretary, to be left with the secretary. The need for other recreation facilities was considered, and the executive decided to look into the possibility of providing a tennis court.

The association invites the support and co-operation of the athletes. The yearly membership fee is \$1.00, and you can give your support by registering with the secretary.

Alta Red Cross Salvage Committee

Salvage day at Alta will be on Saturday, June 3rd, with headquarters in the old hardware store, on main street. The Alta school children will be doing the collecting and everyone is asked to give them their support.

Work has been resumed that paper and magazines are also urgently needed. Arrangements are being made for our trucks to pick up all paper collected at Alta, and to take us to Scatter where it will be shipped in carload lots.

All proceeds from this salvage go to the local Red Cross. Besides paper, other salvage urgently needed is, copper wire, aluminum, brass, auto radios, two elevators, lead, battery plates, iron, rags, dry privy bowls and rubber inner tubes. Start now and gather 'til the salvage for June 3rd.

Those who cheer are the Alta school teachers and Len Johnson, chairman.

THIS IS THE JOB WE HAVE TO DO

THIS COMMUNITY MUST BUY VICTORY BONDS

This is our share of the one billion, two hundred million dollars (\$1,200,000,000) of Victory Bonds to be bought by the community.

WE MUST DO OUR SHARE

It's a big job. We've done big jobs before. We've put five Victory Bonds over the top up to now. But first because we've put five over the top it is no reason why we can't be different about this time. We must not assume that the job will be an easy one. We must realize that it's a big job and assume that it will be a hard job and make sure that the job will be done. There it will be done.

ALL MUST BUY BONDS

and all of us must buy ALL THE BONDS WE CAN

It must be plain to all of us that the opening of new battle fronts means a more costly war. More equipment will go into action. Losses will be heavy. Replacements must go through without let-up. Our men on the fighting fronts must have everything they need. There must be no let-up on the fighting front. There must be no let-up on the home front. We've got to raise the money. Every Canadian must save and lend. Most of us are earning more. We can save more. Others are risking their lives, every one of us lend our money.

Buy Bonds With Savings

BUY MORE OUT OF INCOME

DURING THE NEXT SIX MONTHS

Most of us have some money which we have saved. We can buy Victory Bonds with this money... and we can buy more bonds on convenient Deferred Payments, paying for the bonds as we earn the money, over a period of six months.

Plowman's Wisdom

Now that the month named by E. H. Faulkner's book, "Plowman's Folly," has closed away, we are left wondering what remains. Presumably most of our readers have heard of the book which, in the words of our author, "sets out to show that the manhood plow—ever the most satisfactory implement for the preparation of land for the production of crops." Tons of paper have been used for the publication of more or less complete discussions of the subject, and we don't propose to do more.

The Canadian farmer is, as usual, and is not likely to change his tillage methods until convinced of the wisdom of doing so. It is estimated that 150 million acres of land will be plowed in the United States this year and, as usual, the manhood plow is at work on the Canadian prairie. True, there are highly productive fields in Southern Alberta that have not been plowed for a quarter of a century. But in other parts of the prairie, the manhood plow is considered indispensable. The plowman follows with a trash cover, often combined with strip farming, is very effective in the control of soil drifting, especially in some districts, if tillage operations are carried out efficiently and at the proper time. It does not follow that this position should be adopted universally.

The prairie plowman's wisdom is "beyond question because he selects his tillage methods on the basis of his own and his neighbors' experience plus advice from those whose duty it is to examine and to test methods which have succeeded elsewhere.

THANK YOU CANADA
... but there's still a WAR JOB to do!

DEPARTMENT OF NATIONAL WAR SERVICES

To our Fellow Canadians —

See the millions of Canadians and members of the Voluntary Salvage Committee and many other Voluntary War Workers have done in mobilizing war jobs.

Canada, in doing her part to help win the war, has been greatly assisted by her voluntary and unofficial devotion to the patriotic duty of saving and storing in the essential war materials. We have backed up the huge overseas and local activities have been a material factor in turning the tide of battle against the enemy. Now Canada's stock pile of salvaged war material has been discovered, saved and mobilized. Salvage and conservation. Your Salvage Campaign has been a big one which you have nobly performed.

Now it is your turn to do the post and we must look to the future. Again I appeal to you!

There is a great shortage of war materials which must be met and overcome. Errors in the war have occurred and there is a critical shortage of waste paper and other materials in industry. Supplies must be cut and that the waste paper is the only material which we can fight with. We must be able to supply the war effort. We must be able to supply the war effort. We must be able to supply the war effort.

Recycling waste paper is essential to the war effort. Waste paper is essential to the war effort. Waste paper is essential to the war effort.

Public Canadian please help!

Yours sincerely,

L. M. Smith

L. M. Smith,
Minister, National War Services.

CANADA NEEDS 20,000 TONS
OF WASTE PAPER EVERY MONTH

WHAT IS WANTED: You can remedy this critical paper shortage by saving every scrap of Waste Paper, newspaper, wrapping paper, manila bags, cardboard boxes, corrugated board, old magazines and old newspapers. These represent the raw material for making vitally needed paper containers.

HOW TO DO IT: 1. Security is your first consideration. (The best time to save is when you are not in a hurry.) 2. Save every scrap of waste paper, newspaper, wrapping paper, manila bags, cardboard boxes, corrugated board, old magazines and old newspapers. These represent the raw material for making vitally needed paper containers.

Speaking Of Breakfast!

There are breakfasts AND breakfasts! Is yours one that will give you energy and satisfaction for the day? A good breakfast should contain a good source of protein, a good source of vitamins and minerals, and a good source of fiber. It should also be easy to digest and not cause heartburn or indigestion. If you are having trouble with your digestion, it may be time to change your breakfast. Try some of the suggestions below and see if you can find a breakfast that works for you.

If you sleep through breakfast it is almost impossible to ensure a sufficient amount of energy for the rest of the day. The importance of a good breakfast cannot be overstated. It is the foundation of a healthy diet and a good start to the day. Without a good breakfast, you are more likely to feel tired, hungry, and irritable throughout the day. A good breakfast can help you stay focused and productive, and it can also help you maintain a healthy weight. So, make sure you are getting a good breakfast every day. It is the best way to start your day and to keep your energy up throughout the day.

"That is not the official name of the bridge, but Gen Monty," the English Admiral, it is known as Puente liberty, reports the London Daily Herald.

CHANDLER says he had been told the "scholarship" was to get her within range of the "Duke of York's" 14-inch gun. The heavy artillery of three British destroyers against the much heavier guns of the German battleships was the only chance of success. This makes a remarkable contrast with the German destroyers' somewhat limited role in the battle—dead end and back to port to the action.

When Chandler called a captured German vessel his *diver's* was captured. "Yes, the *diver's*." The rest of it was left to Chandler to do with satisfaction.

the various areas of Canada. In the past, the various provinces and territories have been treated as separate entities, with each province or territory having its own set of laws and regulations. This has led to a complex and often conflicting legal system. The new approach is to treat Canada as a single entity, with a single set of laws and regulations. This will simplify the legal system and make it easier to understand and apply. The new approach will also help to ensure that the law is applied consistently across the country. This is a significant step towards a more unified legal system.

CLIVE NEWS

Mrs. C. S. Noe, Trs. of the Soldiers Club, received a letter of thanks from Mr. H. T. Elliott. He stated that it was in good shape from the time it had been to England and Italy before coming here in North Africa. His letter was dated April 12.

More than 100 there is no point need for recruits for the Canadian Women's Army Corps. By the end of June we must have 1,000 more women to meet our present needs. Our quota for the province of Alberta is at least 40 women.

As our policy for recruiting is now on a voluntary basis, we must have, immediately, we

main with higher qualifications, those trained or suitable for training as clerks, stenographers, cooks, operators, telephone and wireless, postal clerks, messengers, and other similar jobs.

Anyone with information may get in touch with Mrs. M. Warren or Mr. J. Tait.

THE STORY OF INFLATION

... IN ONE EASY LESSON

In wartime, more people are working

and there is more money to spend

but half of what is made is for war

so consumers can't get all they want

and people will bid more for what is available

so prices go up...

and workers need higher wages

costs of production go up

and producers and consumers need higher prices

and the vicious spiral of inflation gets started

but wages and salaries don't catch up with living costs

the spiral grows - and the city is the limit

money buys less and less

hardships and sacrifices creep over factory, farm and home

and the spiral grows - and the city is the limit

50% To Protect Us All from the Rising Cost of Living and the Danger of Inflation

wages and salaries are controlled to prevent higher production costs from pushing up the cost of living

and costs are kept under control

and individual incomes are taxed more heavily

and costs are kept under control

Healing Scalp

Simple Home Treatment

Your scalp has broken out with various eruptions, and you are suffering from dandruff. This is not a serious condition, but it is very annoying. It is caused by a fungus which grows on the scalp. The fungus is killed by a simple home treatment. Use the following remedy: Take a few drops of cod liver oil and rub it into the scalp. Do this every day. The oil will kill the fungus and the eruptions will disappear. The oil will also make the scalp healthy and the hair will grow again. This is a simple and effective remedy for dandruff and scalp eruptions. It is a home treatment and it is very simple. It is a remedy that you can use every day and it will make your scalp healthy and your hair grow again.

Healing Psoriasis

Plan A Simple Remedy For The Chronic

The healing process in Canada is not confined to human beings; it extends to poultry. There is a chronic disease of the poultry known as psoriasis. It is a disease of the skin and it is very annoying. It is caused by a fungus which grows on the skin. The fungus is killed by a simple home treatment. Use the following remedy: Take a few drops of cod liver oil and rub it into the skin. Do this every day. The oil will kill the fungus and the eruptions will disappear. The oil will also make the skin healthy and the feathers will grow again. This is a simple and effective remedy for psoriasis and skin eruptions. It is a home treatment and it is very simple. It is a remedy that you can use every day and it will make your skin healthy and your feathers grow again.

leaving space for the poultry to grow and grow in Canada. Growing space is half-grown poultry looking for a new home. Accommodations are needed for the birds to grow and grow, and with space as a given, there is no immediately fatal or fatal growth. The oil affects the birds in a way that is not fatal, if the piling up is allowed to continue. The obvious solution is to provide sufficient safety homes for the birds, rather than accommodation, and for satisfactory growth there should be at least two large chambers for each safety home and the birds taught to use them. Birds are supplied by nature to feed in the open with a large number of birds in a small area. Many birds are raised in a small area, and many birds are raised in a small area.

CENTRAL ALBERTA BEEF CATTLE CLUB TO HOLD ANNUAL SHOW AND SALE

The annual show and sale held by the Central Alberta Beef Cattle Club at Lacombe, on June 10th, will be officially opened by Hon. D. B. McMillan, Minister of Agriculture. An address of welcome will be given by Mayor Thomas White of Lacombe.

A special feature of the program will be a talk by the late one by Hon. H. H. Maclellan of the Ministry of Alberta, and a demonstration of fitting cattle for show, by Jack Bigelow, Herdman at the University farm. They will be introduced by H. H. Maclellan, Minister of Agriculture. The show will be introduced by the Lacombe Club, which will be in the demonstration.

At noon the boys and girls will again be guests of the "Lacombe and District Board of Trade" at a luncheon to be served in the hall.

In addition to the regular show, special prizes are offered by interested business men and farmers. The best cow and calf are supporting the junior work in a substantial way with the Alberta Herd Breeders' Association in offering \$100 in prizes. The association offered by the Alberta Angus Breeders' Association and the Central Alberta Shorthorn Club will depend on the number of entries of each breed.

Finance Committee points out
that the purchase of Stamps in
Alberta is the lowest in the
Dominion. In view of the ex-
cellent record Alberta always
makes during Victory Loans
they are unable to account for
the poor showing of the Ex-
change where War Saving Stamp
purchases are concerned. They
note only, quite rightly, that
War Savings Stamps are one
of the best investments avail-
able in Canada today. Every

**EXPERIENCE AND
CERTIFIED NEED**
Growers who are planning to
produce Highgrade or Certified
seed crops must be prepared for
field inspection of the crop be-
fore harvest. This inspection
service is conducted by the
Plant Disease Division (Dom-
inion Department of Agriculture
Calgary) to which office applica-
tion for field inspection should
be made immediately. Inspec-
tion may not be made where
applications are received later
than July 1st.

If a registered and certified
seed crop is to be presented for
inspection the field should be
prepared to receive the inspec-
tor's arrival. All margins
of the field should be carefully
mowed. A small amount of
labor, saving other
crop plants or scattered weeds
from the field is important
and may make all the difference
between a passing or non-passing
grade inspection.

PRICE COLLARS

The old family budget is
holding up a big
sign, and no wonder. Nearly
everything you buy has hit the
ceiling. But there is one thing
you can still obtain at the old
pre-war price—electricity. And
you still get the same dependable
pre-war service.

Like your own living costs our op-
erating costs have increased tremen-
dously, too. Materials and machinery
are harder to get and cost more. Pay-
roll is up, too, and all the expense of
making electrical service available at your
thumb of a switch cost more today.

It's the careful planning of past years—the
policy of building for the future, for econ-
omy conditions—plus efficient business man-
agement that enables us to continue the same
high quality of electric service at pre-war rates.

Inflation and Deflation... Evil Companions

Past wars have always brought more degrees of inflation.

Conditions worse... Prices and wages sky rocketed to universal heights.

Then one day the war stopped...

In few days goods became plentiful again.

So city prices could no longer be demanded.

and "spiraling" prices went "pop".

and came down with a bang.

people stopped buying because they thought prices would go still lower.

merchandise dropped in value—retailers went bankrupt.

factories closed and unemployment increased.

farmers were bankrupt.

deflation was general and deflation was in the air.

That is why in this war prices go everywhere that they will not rub before in a rise or fall in a change.

RIPLEY NEWS

The Auction sale held on the Ripley Bros. farm on Wednesday last was very well attended and good prices were realized. Mr. Ray Harker of the auctioneer, his first sale since he became a full fledged auctioneer. When we say he did exceptionally well we mean just that. He was looking forward to a great future for the Ripley in the auction business.

The B.C.C. called a quilt at the sale on Wednesday Mr. M. Schmitt being the lucky winner.

Mr. and Mrs. F. Crook had as their guests last week Mr. and Mrs. Williams and family of Calgary.

Mr. and Mrs. L. Olson and Mr. Arthur Olson of Edmonton spent Sunday week the parental roof.

Mr. Milton Rogers of Flathead, was the guest of Mr. H. Rogers for a short visit last week.

Mr. Robert Duberly and family wish to express their deep appreciation for the many kind expressions of sympathy in their recent and far-removed.

Plenty Of Time
There is still plenty of time to have an excellent garden. One gate into personal satisfaction in getting vegetables planted weeks ahead of the neighbors and, if all goes well, to thrill out of being able to tell his friends that he has had his first radishes long before the usual season. But extra early planting is a gamble and that is why experts urge that only part of the seed be sown then and the balance reserved for planting at the usual time and later when

ONE MAN'S INCOME IS ANOTHER MAN'S OUTGO...

If rising prices and costs were allowed to keep pushing each other up, inflation would be unavoidable. That's what inflation is—a panic rise in prices—with money losing its value and confusion everywhere. To prevent inflation, a ceiling has been set on prices and profits,—wages and salaries have been controlled.

If one person demands higher prices another higher profits—another a higher wage or salary—soon everybody would be making the same demands—demands on everyone else.

Then costs of production could not be controlled.

The ceiling could no longer be held.

Living costs would go up—

and incomes
begin their frantic rise.

**Price Control
And Rationing
Information**

With the increase in the cost of raw materials and the rising cost of labor, the price of cigarettes has increased. The Government has taken steps to control the price of cigarettes and to ration them. This is done to ensure that everyone has access to cigarettes and to prevent hoarding and speculation.

Moving An Army

The British Army has moved from London to the south coast of England. This move was necessary due to the threat of enemy bombers. The army is now based in a more secure location and is better equipped to defend itself.

Some war industries may face a labor shortage in the future. This is because many men are serving in the military and are not available for work in the war industries.

WINGS PARADE

The Royal Canadian Air Force has held a wings parade. This is a ceremony where new pilots are welcomed into the ranks and where experienced pilots are honored for their service.

Have Lost Their Spirit

Some soldiers have lost their spirit and are no longer motivated. This is a serious problem for the military and it needs to be addressed. The military needs soldiers who are motivated and who are willing to sacrifice.

**Form Problems
Are Discussed**

Problems with military forms are being discussed. Some forms are outdated and some are confusing. The military is working to improve its forms so that they are easier to use and more efficient.

The Hon. Bruce MacMillan will speak
at the Legion Hall on Friday, Aug. 4th
at 9 p.m.

Everybody welcome

Question Period

So Come and get the information you need.

C.C.F. MEETING

A well attended meeting and
the speaker of the evening
C.C.F. was held in the U.F.A.
Hall on Wednesday evening.
The candidate for the constituency
of Calgary, Mr. C. C. F. F.
Hickman, was the first
speaker.

He dealt chiefly with Provincial
affairs, such as the utilization
of our Natural Resources, the
Government Control of Oil and
Electric Power.

He said he was in favor of in-
creasing the efficiency of the
Agricultural Industry and ad-
vocated a program of rural
development of the province,
the production of cheaper and more
efficient farm machinery.

Mr. Miller, speaker, C.C.F.
Federal candidate in the West-
ern constituency spoke at
length on Federal affairs.

He advocated public own-
ership of banks and transportation,
the economic life of Cana-
da, controlled by small
groups of powerful financiers
who are responsible to no one
but themselves.

Canada, he said, stood seven-
teenth in the nations of
the world in health services
which is not an enviable posi-
tion.

Referring to Alberta's posi-
tion regarding the nation's
government, he said that the
government owned it, while in
Calgary where it is the
government owned it, it is
owned by the people.

In conclusion, he said under
the present system only 3 per
cent of our people attended to
work, while the taxpayer, ac-
cording to the speaker, is the
majority of the population.

Both Mr. Gertys and Mr.
Stewart were given a vote of
thanks and the meeting ended
with the singing of the National
Anthem.

AT THE CAMP MEETING

Rev. H. E. Gordon of Edmon-
ton, representing the Associated
Temperance Friends of Alberta
will speak at the camp meet-
ing on Friday evening at 7:30
p.m. Millions of dollars are
spent by our province annually
for liquor the effects of this
winning traffic are really seen
in the faces of both men and
women. Every freedom loving
citizen should be interested in
this worthy cause. Following
the temperance service Friday
evening at 7:30 p.m. Mr.
Rene will tell his life story.
He will tell how he was con-
verted in the days of his youth
and has had some experience in
traveling both sides of the
road. God's grace has wonder-
fully transformed him. We
are sure that you will listen to
his experience with great inter-
est. A warm welcome to all.

Mr. Fred Stone of Montreal
gave a short visit to his parents
Mr. and Mrs. W. M. Stone
brothers Dave, John and
Hub Stone.

Clifford Hilde N.C.M. is visit-
ing his parents.

FLOWER SHOW FOR ALIX

Those who enjoyed the U.F.W.A. Flower Show two years
ago will be glad to learn
that there will be a small-
er, but not less interesting
show will be held in the after-
noon of Saturday, August 18th
in the U.F.A. Hall, sponsored
by the U.F.W.A. with all peo-
ple welcome to see and judge
the show.

A fully illustrated price list
with detailed pictures of
classes and prizes for each will
be printed in next week's paper.
The list will be much like the
last one with prizes for various
classes of flowers. The exhibi-
tion will be with the popular class
of flower decoration. A new
class of flower decoration will
also be added.

"Flower Girls" Homecoming to
the show will be held in 10 years
and some will be judged for
the best flower girl in the show.
The show will be held in the
hall and the flower girls will
be judged during the tea hour.
Watch the flower girls and
keep the date open.

MR. CONSUMER:

ADEQUATE SUPPLIES AVAILABLE OF ALL
GOODS NEEDED TO KEEP YOUR FAMILY FIT. FAIR
DISTRIBUTION ESSENTIAL. DON'T OVEREAT! FOR
YOUR SHARE. NON-ESSENTIALS MUST WAIT UNTIL
WAR HAS WON VICTORY HAS FIRST PRIORITY. PRICE
CONTROL MEANS SELF-CONTROL.

GOVERNMENT OF CANADA.

MR. WORKER:

PRICE CONTROL ESSENTIAL TO PREVENT
YOUR COST OF LIVING. PRICE CONTROL. INCREASE
WAGE AND SALARY CONTROL TO PREVENT INFLATION.
ED PRODUCTION COSTS. LOWER OR LATER ALL
BUSINESS LOSS BY INFLATION.

GOVERNMENT OF CANADA.

TO PREVENT INFLATION

**— NOW
AND DEFLATION ...
LATER**

Controlled prices, wages, costs,
profits mean security

If one breaks through ...

Soon all would break through ...
And nobody would be able to plan

**WE CAN ALL HELP BY SUPPORTING CONTROLS
OVER PRICES, WAGES, RENTS AND PROFITS**

MR. FARMER:

TO KEEP DOWN COST OF WHAT YOU BUY,
ESSENTIAL TO HAVE CEILING ON FARM PRICES.
THIS IS VITAL TO PREVENT INFLATION NOW --
INFLATION AND DEPRESSION LATER -- FUTURE
OUTLOOK FOR STABILITY IS FAVORABLE --
WITH CEILINGS ON TOP AND FLOODS BENEATH.

GOVERNMENT OF CANADA.

MR. BUSINESS MAN:

SHOULD NOT BE INCREASED. MORE NECESSARY
THAT STEPS TO KEEP DOWN COSTS BY ECONOMY
AND GOOD MANAGEMENT. INFLATION DOES NOT
BRING ECONOMICITY. DEFLATION MEANS
ECONOMY.

GOVERNMENT OF CANADA.

MR. LANDLORD

SURETY. RENT IS A MAJOR ITEM IN THE FAMILY
BUDGET. IF ALLOWED TO RISE, COST OF LIVING
WOULD QUICKLY INCREASE. WITHOUT CONTROLS
RENTS WOULD BE HIGHER -- BUT SO WOULD ALL
YOUR COSTS OF OPERATION -- AND YOUR OWN
DOLLARS WOULD BUY FAR LESS.

GOVERNMENT OF CANADA.

EVER walk into an auction and find yourself getting excited and wanting to bid... a victim of "auction fever"? Various conditions can breed "auction fever" if we let them. Everything is in short supply. Many more people are able to bid.

But... if prices are bid up... all our dollars will lose some of their value. Even auctioneers could get out of reach.

- ▷ What can it mean money, if living costs go up all higher.
- ▷ What good are higher returns to business, if they are offset by higher costs.
- ▷ What does the farmer gain if higher farm prices lead to skyrocketing and low prices later.

We cannot maintain a full war effort and prosper to meet the problems of the post-war period unless we maintain a stable and reasonable price level now.

DON'T GO AGAINST YOURSELF - BID IN AND HOLD!

LEADS TO "NO WAR ECONOMY"
COUNCIL ON ECONOMIC DEVELOPMENT
1-400 page, 50¢.

This is one of a series being issued by the Government of Canada to encourage the importance of preventing inflation increases in the case of living costs and inflation later.

Prisoners in Japan

Prisoners in Japan are being treated in a very different way than they were in the past. They are being given more food, and they are being given more freedom. They are also being given more information about the war.

Mobile Field Hospital

The mobile field hospital is a very important part of the army. It is a hospital that can move with the army, and it can provide medical care to the soldiers in the field.

Smile Amidst

Smile amidst the hardships of war. The soldiers are finding ways to stay happy, even in the most difficult circumstances.

More Played An Important Part

The women of Canada have been playing an important part in the war effort. They have been working in the factories, and they have been working in the hospitals. They have also been working in the home, and they have been taking care of the children.

Work Behind Front Lines

The women of Canada have been working behind the front lines. They have been working in the hospitals, and they have been working in the factories. They have also been working in the home, and they have been taking care of the children.

A Veteran's Idea

A veteran has come up with a new idea for the war effort. He has suggested that the women of Canada should be given more responsibility in the war effort.

Making Them Gay

The soldiers are finding ways to stay happy, even in the most difficult circumstances. They are playing games, and they are singing songs. They are also taking care of each other, and they are helping each other.

Good Gardening Tools

Good gardening tools are very important for the soldiers. They are using these tools to grow food, and they are using them to build their homes.

Too Many Horses

There are too many horses in the army. They are taking up too much space, and they are costing too much money. The army should get rid of some of the horses.

Added The Invasion

The invasion of Canada has added a new dimension to the war. The soldiers are now fighting a two-front war, and they are facing a new enemy.

Too Many Horses

There are too many horses in the army. They are taking up too much space, and they are costing too much money. The army should get rid of some of the horses.

ITCH CHECKED

The itch has been checked. The soldiers are now free from the itch, and they are able to continue their work.

about the things you buy in wartime

Milk IS NOT ELASTIC

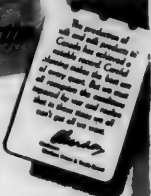

Milk is our most valuable food. It most provide us with milk to drink, with butter, cheese, evaporated and concentrated milk and a score of other products.

Canadian farmers have done a magnificent job. They have increased

milk production in 1943 by more than 540 million quarts over 1939.

They have done this in the face of a 25% reduction in farm help, equipment shortages, and the fact that it takes two to three years to bring a calf into milk production.

WHAT HAPPENS TO ALL THIS MILK?

In spite of greater production, the demand for milk and milk products has risen even more, because—

a) There's more money to spend;
b) More people are working, with changed food habits and increased food needs;

c) Our Armed Forces and Allies make heavy demands.

It has therefore been necessary by rationing, by substitution, by careful planning and by our controls—to divert our milk supply into channels it most suited to our wartime needs.

The above graph shows in percentage form the total Canadian milk supply in 1943.

FLUID MILK DOWN 10% OF OUR NEED

Despite fluid milk is regarded by Canadians as the most healthy portion food, rationing has been allowed to interfere with its use. Today, Canadians are drinking more milk and a greater percentage of our milk supply is being consumed as fluid milk—than ever before. Fluid milk has the right of way, but don't waste a drop of it.

CHEESE DOWN 10% OF OUR NEED

Canada's annual cheese production has gone up by about 20 million pounds since the war.

Cheese is a concentrated food product—easily stored and stored. That is one reason why we must keep quantities in Great Britain to help meet its growing food needs. While in the last year we exported four of every five pounds of cheese we made, our production has been so increased that we have left for domestic use about three million pounds a year more than before the war.

BUTTER DOWN 40% OF OUR NEED

A churn is usually of wood or metal and comes of various sizes.

In the first three years of war, our butter consumption increased 10.5%. In rationing we established to prevent too much milk going into butter, at the expense of other important milk products, and to insure a fair share to everyone.

The rationing of butter was influenced by the fact that it has less nutritive value than most other milk products, and because we get a generous supply of fats or their food equivalent in other forms.

To maintain a proper balance of consumption between various milk products and to ensure that butter is put into storage for winter use—when production drops—it is necessary to ration the ration from time to time.

EVAPORATED MILK DOWN 6% OF OUR NEED

More than twice as much (141 million lbs.) was used by Canadians last year up to 1943 (74 million lbs.). And yet, there has not been enough.

Where has it all gone? It's an important food for babies—and there are 10,000,000 of them a year. Larger quantities have gone to areas where food is not available. Armed Services have added new demands. In spite of this, our supply of evaporated milk in Great Britain, Newfoundland and the West Indies, etc., was maintained at pre-war level.

ICE CREAM AND OTHER MILK PRODUCTS DOWN ABOUT 10% OF OUR NEED

The manufacture of ice cream is restricted to the 1941 level because milk is needed for other purposes. Milk Powder and Condensed Milk are included in the ration.

Any more milk. Milk sugar is used in the manufacture of Penicillin and for other wartime purposes. Cream in milk (butterfat) is used in making glue for aeroplanes.

10% OF THE MILK PRODUCED IN CANADA IS CONSUMED IN CANADA.

about the things you buy in wartime

THE STORY OF CHILDREN'S UNDERWEAR

OVERTLY babies and children must have underwear too—the Wartime Prices and Trade Board has given special attention to the production of these garments.

The problem has not been to much one of a lack of materials but of getting the raw materials—cotton, rayon, spun yarns and then knit and woven garments—Canada has never produced all

the wool, cotton and rayon yarns she requires. We have always had to get a substantial part of our requirements from other countries, even in peacetime. But since the war there has been an acute shortage of underwear yarn everywhere.

There has been a greatly increased demand in addition to production difficulties. The efforts of the Board to meet the problem are given below.

THE INCREASED DEMAND RESULTED FROM:

More babies
It's apparently
driven the way in wartime.

Increased use of second-hand or
"hand-me-down" garments.

But buying...
Children the
way people would be in
the war time.

In need underwear buying
Have people with more clothes.

Less from working...
Have been working outside the
home.

It's demand for underwear by
the armed forces.

MORE UNDERWEAR: but still not enough!

The reason is that it just has not been possible to produce with the skilled workers and machines available in the United States enough pure cotton garments to meet the increased demands all over the world.

WHAT HAS BEEN DONE ABOUT IT

- First of all, the Board found out the kind and quantity of garments Canadian children must have.
- This showed that the public is asking for more than is actually needed.
- No plans were made to use, by directing production all down the line, if we could meet the swollen demand as nearly as possible.
- Each manufacturer was told to produce an increased number of garments.
- A constant check is kept on mills to see that they are producing the required number.
- Manufacturers not previously making children's underwear were induced to go into production. An additional 400,000 garments will be provided this year from these sources.
- Negotiations were conducted with production authorities in other countries for a supply of yarn to Canadian factories for use in child's underwear.
- Primary cotton mill was asked to divert spinning facilities from baby's underwear to the spinning of underwear yarns.
- Arrangements were made through National Selective Service to divert some labour to the underwear mills.
- A special campaign was launched to enlist part-time workers.
- Distribution to retail stores was organized to ensure equitable supply to all.

The greatly increased supply of children's underwear resulting from these efforts is shown by the relative size of the figures below.

You can't get all you want in wartime
If you will do - Don't buy time

HOLD THE LINE

The immediate post-war period will be beset with many agricultural problems. The principal one will be the possibility of a collapse of the prices of farm products such as occurred after World War 1.

Canadian farm production has increased substantially during the war years in direct response to the plans of the Canadian and Allied governments. There have been abundant markets for farm products during the war. There is a danger, however, that these markets will contract in proportion with the result that surpluses will accumulate in Canada.

Canadian farmers should be strong in their determination to insist that their share be no collapse of farm prices in the post-war period similar to what occurred after the first world war.

The best way of achieving this is to strengthen farm co-operatives and farmer associations.

New Regulations For Bird Shooting Season

New provincial game regulations have been announced for the current season by the provincial fish and game branch.

A number of changes are provided by the regulations. One of the most important is the increase in the bag limit of the R.C.A.F. in 12 to 20 per day but there is a restriction in that of the 20 must more than 10 shall be of species other than mallards. The increase has been made particularly because mallards have been reported plentiful.

The new bag limit on ducks is 12, with not more than 61 comes restriction at one time.

New ducks, geese, rails, and snipe south of the Athabasca river, including the Edmonton area, the season opens Sept. 15 and closes on Dec. 15. In the area north of the Athabasca River, the season opens on Sept. 15 and will close on Nov. 15.

The season for shooting cock pheasants will be open from Oct. 9 to Nov. 15 in that part of the province north of the Red River, bounded by the Red River, the Athabasca and the Peace rivers. From Oct. 9 to Nov. 30 the season will be open within the limits of the Eastern Irrigation District, east of Calgary. In the Edmonton district, the season will be open Oct. 9 to Nov. 31.

The daily bag limit on cock pheasants is 5 and the season limit is 40.

Uniform throughout the province, the season for Hungarian partridge will open on Nov. 25. The bag limit is 5 per day and 40 for the season.

The regulations provide that the season for sheep-killing (prairie chickens) in the northern and central parts of the province, north of the C.P.R. through Calgary, Banff and Jasper will open on Oct. 9 and close Oct. 31. South of the C.P.R., the season will open Oct. 7 and close Oct. 31. The bag limit on prairie chickens is 5 per day and 40 for the season.

A closed season has been declared on ruffed grouse, more commonly called bush partridge, the number of these birds has been reduced as compared with former years. Reduction has been caused mainly by poor nesting and wet weather conditions.

Also there is a closed season on Rose Greys, grouse, spruce grouse, partridge, ptarmigan, and quail. The closed season extends throughout the province. The action is similar to that taken in other provinces.

Provincial game officials say that the bag limit for certain game birds which may be taken this season are given 5 per day and 40 for the season, snipe, rails and Wilson snipe. In snipe and rails in the aggregate and 100 for the season.

Ducks which are damaging crops in the field or in the out of season by farmers, according to provincial game regulations, the birds cannot be sold or offered for sale and must not be shot, unless in areas in which the crops are being damaged.

Volts Of Misconduct.

Canada will continue to ship 200,000 tons of newspaper per month to complete her quarter by quota to the C.B. by the end of 1944. HELP FINANCE YOUR BUY VICTORY BONDS

WORLD OF WHEAT

We Must Buy If We Want To Sell

By H. G. L. Strange

Our farmers are receiving much advice about what they should produce. They are being urged to go in more for diversified farming. "Diversify" one of the terms which are heard every day. Now farmers have now learned how much better it is to produce livestock and livestock products than to grow themselves to grain production.

The trouble is that our prairie farmers are only produce commodities for which there is a good market, and which will return a price that will cover cost of production with some profit. Markets which mean mainly export markets—there, and not at home, govern the whole matter. To illustrate this war has brought a large demand for hogs at reasonable prices. Our farmers quickly by increasing hog production and needed to advise not trying to do so.

We must ever remember, however that we cannot sell if we do not buy and this means that if after the war large quantities of farm products are to be sold abroad then Canada people must be willing to purchase the goods of those foreign goods who need our products. This in turn means that high tariffs, which now curb the importation of foreign goods, will have to be torn down. Those who are not in a hurry to help farmers, therefore, do so by preventing our Government to tear down existing Canadian tariffs.

YOU can't have one without the other... you can't share in the Victory unless you are ready and willing to take your place with the boys who are winning it.

The fight is on now—in the face of the enemy—and you must be an overseas soldier to get to it.

So get that GS badge on your arm right away.

There's still time—and there's a place for you in the Canadian Army—for all the young men who want to be fighting soldiers.

And when you come home again, you'll be one of the boys to lead the Victory Parade!

Join up now... don't go GS.

Lamerton Council

Campaign against noxious weeds in Lamerton District of Lacanville is being vigorously prosecuted and officers are being made to form all district farmers from these parts. At the regular meeting of the municipal district council, held in the municipal district office building on Sept. 14th and 15th, William Chamberlain, vice president, gave a full report. He said that several pieces of farm property had been condemned because the ground was infested with noxious weeds.

Major J. Carver of the National Army appeared before the council and appealed for the continued support of the municipal district. He was informed that an appropriation of \$200 had been passed for the National Army earlier in the year.

Robert Gibson and A. Freeman of Banff called at the council to form a committee to represent the Provincial Minister of Health in the eastern part of the former Municipal District of Lorne and part of range 36, west of the 11th meridian. In the former Municipal District of Crowns. After a lengthy discussion, the council decided to take no action on the matter at present.

A communication from the Provincial Department of Health advised the council that the annual contribution of the municipal district to the Health Fair this year would be \$1000.

All other business was of the usual routine nature.

Canada's Forests

CANADA is a COUNTRY of vast natural resources, many of which have not yet been fully developed. There is, however, one natural resource which has been developed to such an extent that it is now being marketed in a form which is not only convenient but also of high quality. This is the case with Pipebac, a Canadian-made pipe tobacco which is now being marketed in a form which is not only convenient but also of high quality.

FARMERS! WILL YOU HELP THIS WINTER?

If you are not required on the farm this winter you should take other work.

Extra winter workers are needed for wood operations—logging and pulpwood and fuel cutting—base metal mines, coal mines, meat packing and cold storage, grain handling, railway track maintenance, iron foundries and other high priority occupations, varying with the area.

Please offer your services to:

*The nearest Employment and
Selective Service Office; or*

*The nearest Provincial Agricul-
tural Representative; or*

*Your Local Farm Production
Committee.*

A good response to this appeal is important to Canada's welfare—please act immediately.

Postponement of Military Training continues while in approved essential work off the farm.

THE COMPLETE RUBY STORY—Scraps of Paper

—By—

"A woman cannot be of use to the Army," Put Bryn repeated and looked at Ruby. "I don't see why you bothered to dress me. I don't see why you bothered to dress me."

"You're right," Ruby replied. "I want to serve my country."

"You're right," Ruby replied. "I want to serve my country."

But the most was perfect. They were chosen, tried to a deep and wonderful horror, the general had long loads, there was risk great with the position, and the general was chosen with such grace. Put Bryn was not a soldier. As soon as the word was given to be hurried to the children's room, where Ruby was still sitting. The word came and Ruby was still sitting. Put Bryn was not a soldier. Money Increases

According to the latest statistics, money production in Canada in 1940 amounted to \$2,000,000,000, an increase of \$1,000,000,000 over the 1939 level of \$1,000,000,000. The increase was due to a record number of coins in 1940 combined with a higher average yield which, in spite of adverse weather conditions, was 40 per cent higher in 1940 than in 1939.

Doorways to Opportunity

SOCIAL SECURITY MEASURES

In planning Canada's reconstruction policy, the Government worked with one principal idea in mind. This was that the only answer to the problem of unemployment was to get and hold the job in a job, and that the easiest way to get and hold that job is by the skill necessary for it.

VOCATIONAL TRAINING

Every ex-service man or woman who will be assisted in re-establishment by training is eligible to have it. There is provision for paying fees for all courses and, in addition, the ex-service man or woman may receive maintenance while in training.

\$60 monthly if single.

\$80 monthly for a man and his wife, together with children's allowances.

This training is available for the period of service in a maximum of one year, but can be extended beyond that period, if necessary, and if service is more than one year.

EDUCATIONAL TRAINING

This is available to all who are admitted to university within 15 months of discharge and, as in vocational training, fees are paid and there are maintenance allowances up to

\$60 monthly for a single man.

\$80 monthly for a man and his wife, together with allowances for dependent children.

The allowances will be continued on a month for month basis of service in the service, providing all conditions are passed. Outstanding studies may have assistance continued to completion of the course.

SOCIAL SECURITY MEASURES

Under the reconstruction policy, Canada's veterans who, within 15 months of discharge from the service, become ill or unemployed may draw maintenance allowances up to \$50 if single and \$70 for a man and his wife, together with children's allowances. The out-of-pocket expenses are for those who are able to work, but for whom there is no work immediately available. In the case of service illness, there is free treatment and hospitalization for any condition in the year following discharge.

As a further security measure, every veteran who enters insurable employment is entitled, after 15 weeks in that employment, to unemployment insurance credit as though the whole period in the service since July 1, 1941, had been spent in the insurable employment.

VETERANS WELFARE OFFICERS ARE ESTABLISHED IN KEY CENTERS THROUGHOUT CANADA. THEY ADVISE AND ASSIST RE-EMPLOYMENT SERVICE PERSONNEL, AND SHOULD BE CONSULTED ON ALL PROBLEMS.

Issued under the authority of Hon. Leo A. McLaughlin, Minister of Veterans Affairs

"The price is just high."

This is the reason given, by many shrewd agents, for failure to invest farmers in Registered or Certified seed. If the statement is true, it must be based on one, or both, of two suppositions. They are:

1. That mixed or "trash" seed will give as good, or almost as good, a return per acre as well prepared seed.

2. That low seed prices are making too large profits.

Both suppositions are wrong. Generally speaking, yield, grade and life, especially of wheat, are over in mixed seed. Most mixtures, based on private farms, contain early and late types, red and white and rust susceptible types, poor quality types, etc. Remember that it is not economy to buy expensive seed every year. With proper care, Registered or Certified seed will continue to produce a reasonably pure, successful crop for several years. Therefore, the cost of pure seed must not all be charged to the year in which the purchase was made.

The question of seed growers' profits can be discussed with a few words. It takes a highly good farmer to be successful seed grower. In most cases, these "good farmers" could make more money by producing commercial grain. Thus, why don't they? Probably because they get paid for their pure stock just as does the livestock breeder. They take a very good seed in their own high standards and do not measure success solely in terms of money income. The price is not too high.

Here a CWAC There a CWAC

It is a large responsibility that falls on the shoulders of the CWACs who work on the bridge of the USS Zumwalt. The CWACs are the eyes and ears of the ship's command, and they are responsible for the safe and efficient operation of the ship's weapons and sensors. The CWACs are also responsible for the ship's communication with the fleet and the command. The CWACs are the backbone of the ship's command and control system.

Young Men's War

When a young man joins the military, he is often told that he is going to war. But what does that mean? Is it a war of physical combat? Or is it a war of the mind? The young men of the military are often faced with a choice between a life of peace and a life of war. They are often told that they are going to war, but they are often not given the full picture of what that war will be like. After giving faithful service to the village and district for the past year a pleasant presentation was made to E.H. Fry last Friday night in the United Church. This on the occasion of his retirement as postmaster in that village. His many friends came to pay him tribute and present him and Mrs. Fry, both of whom are highly esteemed, with a purse of gold with expressions of sincere good wishes for many more years of happiness.

A lovely program of carol music preceded the presentation which was made by E.H. Perry and Rev. J.B. Brown, Clivite, enlivened on the occasion.

Mr. Fry came to the district in 1936 from London, England and was postmaster at Trivale near Tees (which post office has been closed for many years) and was appointed postmaster at Tees in 1936 taking charge after being assistant at John Creek for six months.

In 1932 falling health caused him to retire and his son Gerald and step-son Cyril Colman took over the duties of the post office when he again took charge.

Mrs. Fry has been a faithful and able assistant to her husband for many years. Mr. Fry is 63 years of age and is in good health and the work entailed together is to continue residing in Tees, Lacombe Division.

More of the toys in Christmas stockings this year will be made of wood and plastic and fewer toys of metal. The W.F. T.R. has announced. © That old saying, so well known to farm folk: "Plow to the end of the furrow", is aptly made our day's plan. And the end of the furrow is beyond the horizon.

Our men on the fighting fronts have weary, trying days ahead of them. We, on the home front, must not waver nor falter. Our duty is clear, we must keep faith with our fighters. On Canadian farms we must maintain our efforts to produce the foods our fighters and our cities need. That work will reward us with increased incomes.

And we must see... to have money to lend to our country to pay the increased costs that this war continues to pile up.

Money loaned in Victory Bonds will help to buy the tools of war. They don't last long in stores. They must be replaced. It's our job to keep the home front job to see to it that our fighting men have everything they need.

Victory Bonds yield a double harvest. They provide our country with money to buy things we will want and need, and which we have done without during the war. Victory Bonds will provide cash to pay for improvements for farm and home... new buildings... new machinery... better roads... new car T.V. broadcasting and conveniences for the home.

CANADA'S VETERANS Their Post-War Opportunities

There is the prospect of a better life of opportunity to follow the service of Canada at home or abroad. We are full of ideas, plans and good many opportunities.

Minister of Veterans Affairs
Ottawa, Canada

Home and Farm Ownership— The Men Who Want to Run Their Own Business

There are two ways in which Canada's service people can have homes of their own. One measure, the Veterans' Land Act, provides assistance in three ways: on small acreages of land outside the high taxation zone, financing homes on small acreages of land outside the high taxation zone, while the re-establishment credit may be used for purchase or building of a house in town or city. Low cost financing is available under the National Housing Act. Under the Veterans' Land Act, now drawing votes in the coming election, up to a maximum of 140,000 acres of land and buildings and the privilege to pay down 10 per cent of the cost of land and buildings and the privilege to let him for the down payment plus two-thirds of the cost. The balance may be financed by a loan of up to 25 years, with interest at 3 1/2 per cent. A further grant may be made for purchase of equipment.

The veteran is given title to the property, including the grant of 20 1/2 per cent of the cost of land and buildings and the money for equipment, if he has lived up to his obligations for ten years.

If the re-establishment credit is used for a home, the veteran must be prepared to put up one dollar for every two dollars used from it. This type of assistance may be applied for at a time within 10 years of discharge.

FARMERS AND COMMERCIAL FISHERMEN

Veterans qualified for full time farming and for commercial fishing may receive assistance in purchasing a farm or home under the Veterans' Land Act in the same way as the veteran wanting a home on a small acreage, outside the high taxation zone. In the case of full time farming, an additional grant of \$1200 is available for purchase of stock and equipment, and in commercial fishing the commercial fisherman may receive up to \$1200 to buy needed fishing equipment. There is no limit under any of the three provisions of the Veterans' Land Act, the veteran man or woman must have overseas service or at least 12 months' service in Canada.

TO ASSIST BUSINESSMEN

One purpose for which the re-establishment credit may be used is to buy a business or to provide working capital for a business. Here again application may be made at any time in the 10 years after discharge.

In addition to using the re-establishment credit in this way, people who start their own businesses, or farmers, may draw maintenance grants during the period they are awaiting returns from the business or the farm. These grants may be paid in the first 18 months after discharge, for the period of service, and up to a maximum of one year.

VETERANS' WELFARE OFFICES ARE ESTABLISHED IN KEY CENTERS THROUGHOUT CANADA. THEY ADVISE AND ASSIST EX-SERVICE PERSONNEL, AND SHOULD BE CONSULTED ON ALL PROBLEMS.

HOSPITAL STAFF MAY NOW

BE HIRED DIRECTLY

Professional and non professional workers for hospital may now be hired directly without passing through local employment and selective service offices. Hon. J. A. Macpherson, Minister of Labour stated.

"In order to help meet the extreme need for hospital staff this change in the method of recruiting workers has been granted to hospital authorities to accommodate what threatens to be a very serious shortage of workers."

Male or female applicants may apply directly to hospitals for interview and be hired without Selective Service permits, as formerly, although the war-time permits will be made out by the hospital authorities.

Local employment offices will continue to secure help for hospitals and will also be kept advised of all payments made directly by the hospitals.

Instructions have gone from Ottawa to the employment offices that the changed procedure becomes effective at once.

Authorization for the mass factor of 200 additional 10,000 washing machines for the fourth quarter of 1944 bringing the yearly figure to 32,000, is announced by the Wartime Prices and Trade Board.

It is unlikely that there will be an increase of washing machines on the market because shortages of labor, materials and other wartime difficulties have limited production. In the period January-August only 27,000 were made out of the authorized quota of 32,000.

The price Board stamp showing the slaughterhouse license number must be applied at five places on each side of a beef carcass, and three places on the sides of veal and lamb carcasses and. It is not necessary to stamp hog carcasses, nor for a farmer to stamp meat sold direct to the consumer.

KILLED IN ACTION

Dear Mrs. O'Connell,

Happy have been remembered changed in answering your letter but have been busy coming over. I will endeavor to give you some of the details of your husband's death on Sunday and hope it is what you want.

He was in an attack just north of VERMILION which is approximately 12 miles south of Chien and there the attack. If you remember we read together he was driving a gun tower with his gun and crew and they took a direct hit from a tiger tank. Somehow the crew that was left (3 men) got the gun into action and engaged the tank. How he got the gun up that far was unbelievable the tank was ragged. You let me right in the front on an attack in fact he did a great job and you should feel real proud of him which I guess you do. The tank will be double by drop-ping a line later giving exact location of his grave etc.

Shipping everything is O.K. at Alia. I was through there yesterday and only came back the necessary. With this new and hope this is the last mention required.

Yours sincerely,
Capt. Richard Ashland

LAWIN-NIX

Home and yellow and pink christenings decorated the Church of Our Lord on October 12 when Mrs. F. Lawin united in marriage Mirville Ellen daughter of Mr. and Mrs. A.R. Nix of Victoria, B.C., and A.R. Frederick George Lawin, B.S.N.E., son of Mr. and Mrs. Victor Law's S.S., Fifth Avenue, Prince Rupert.

Given in marriage by her father, the bride was lovely in a flower hat and carried a bouquet of Sweetheart roses and white carnations. Her happy veil fell from a Mary Queen of Heaven. Bridesmaids were Miss Isabelle Wagg and Miss Francis Frayburgh, while four flower girls of white shoes and Miss Faye Wagg was flower girl in a white frock, with flowers in her hair. I.B. Arthur Burton R.C.N.R. was an usher. A reception was held in MacDonald Hall, where the bride was privileged by Mr. George Wagg, Prince Rupert.

For a honeymoon to Vancouver and P.O. Report the bride travelled in a limousine with white furs for outer and two maids. Her carriage brought her to Sweetheart home.

LET'S be quite frank.

When you read—as you probably did during the past few months—that more than 300,000 people in Canada have typhus, what was your reaction? Did you say, "That's too bad, something should be done about it", and then turn to the corner page? Chances are you did.

But if that article had told you that Tommy Jones, the lad who used to show your lawn after school, had typhus—how would you have felt about it? Or that the young couple who built that cute house in the next block, had just lost a baby through typhus... would that have made you stop and think?

Or, if you suddenly discovered that your Mom... Mom? That couldn't happen? But it can. And it does... to hundreds of Tommies and Marys every year, right here in Canada. Right in your community. You'll

never read articles like that, of course, for that's not the personal suggestion that people live in silence.

So, when you pick up the paper tomorrow and read... there were 3,000 new VERMILION DOLANS coin reported in this province last year... remember! These are not cold figures. They represent 3,000 heart-breaking situations.

Yes, VERMILION DOLANS is a serious problem. It's a problem for parents; for taxpayers; for young people on the threshold of life; for everyone.

VERMILION DOLANS need never strike if we all do our part. If we know the facts, if we use these facts to advantage, if we don't shirk our shoulders and say, "This couldn't happen to anyone in my family..."

You have a duty to your family and the community.

LEARN THE FACTS!

The worst inflation came AFTER the war the last time... to be followed by disastrous deflation, unemployment and confusion. For Canada to manage successfully the change back to peace, maintain employment, and meet the world's competition... we must continue to have stable economic conditions. To protect the individual from rising costs of living and later unemployment we must continue to prevent inflation.

To prevent a repetition of the conditions following the last war PRICE CONTROL MUST BE MAINTAINED AS LONG AS INFLATION THREATENS US.

This can only be done if production is efficient and economical, both are kept down - and consumers refuse to pay more than ruling prices.

THIS IS ONE OF A SERIES OF POSTERS BY THE GOVERNMENT OF CANADA TO PREVENT THE REPEATING OF INFLATION. A SERIES OF 10 IN THE YEAR OF 1944, AND 1945.

DOWN-WILTON

The home of Mr. and Mrs. Wilton. Wilton, Alx., was the scene of a pretty wedding when their eldest daughter, Miss Wilton, was united in marriage to Mr. and Mrs. Wilton. The ceremony was performed by Rev. J. H. Bell of Melbourne. The wedding was played by Miss Hilda Tebbel under an arch of chrysanthemums, white and pink and white streamers. The bride, given in marriage by her father, wore a gown of pale pink, with cape and a train of deep rose buds. She wore a shoulder length veil of white lace and held in place by a band of white flowers and matching accessories.

The bride's only ornament was the gift of the groom, a lovely gold brooch and the bride's gift to the groom was a ring and pendant.

The bride was attended by her sister, Evelyn, who wore a blue short cape and matching veil, and a bouquet of yellow roses. The groom was attended by his brother, Harold Bruce Lewis.

During the signing of the register "I Love You Truly" was sung. The wedding dinner was served at the bride's home. The reception was held in a very blue two piece short cape. The groom's mother wore a very blue dress trimmed with pink.

Among the guests were the bride's brother and sister, and the bride's mother and father. The bride's mother, Mrs. Wilton, was the bride's mother. The bride's father, Mr. Wilton, was the bride's father. The bride's mother, Mrs. Wilton, was the bride's mother. The bride's father, Mr. Wilton, was the bride's father.

Invest in Victory

CANADA'S EXPORTS TO THE UNITED STATES, which have been the most critical period of the war in this country, are showing a steady increase in volume and value. It is estimated that the total value of Canadian exports to the United States for the first nine months of 1942 was \$1,000,000,000, compared with \$800,000,000 for the same period in 1941. This increase is due to the fact that the United States has been buying more Canadian goods and services than ever before.

Small Head For
Portulacine Leaves

It is interesting to note that the small head of portulacine leaves is a very common sight in the gardens of many people. This is because the plant is so easy to grow and so useful. The leaves are small and round, and they grow in a cluster. They are very tender and can be eaten raw or cooked. They are also very good for medicinal purposes.

Infection in A
Coulters' Suffer

The infection in the coulters' suffer is a very serious condition. It is caused by a bacteria which enters the body through the skin. The bacteria then spreads to the internal organs, causing a severe infection. This condition is very dangerous and can be fatal if not treated immediately.

We are taking a great deal these days about "Unity" and unfortunately more about the disunity which is supposed to exist among the people of many different racial origins which makes up our population of Canada. There is one thing in all this we might remember which is that there is no disunity in battle. Lads of every racial group from Canada are doing their full patriotic duty for sale on the battlefields of Europe and when needs be to fighting to safeguard this our country.

Cannot we live at home in safety and security regardless of our racial origins? Can we spend in our own building up this Canada we are our lads who are daily risking their lives for us.

Cannot we conclude that the national mosaic formed of the most characteristic and virtues of the many races in Canada has been slowly created by the blood of our men who have risked their lives to save our country?

EDUCATIONAL

REHABILITATION

The Alberta Department of Education has accepted in co-operation with the Federal Department of Labor to establish special schools for ex-convicts to receive vocational training. The first of these schools will be opened in Edmonton in January 22, 1945.

Ex-convicts desiring to enter the school should write within the first university year following entry into the school. It is intended that students now eligible to enter university to complete the first year before the opening of the University session in September, 1945.

These interested should immediately write to the Registrar of the University of Alberta, Edmonton, giving the following information:

1. Age and length of service.
2. Time when and place where last high school examinations were written.
3. The school to which admission is sought.

Seasons Greetings
The privilege of serving you has been a pleasure.
May your Xmas be bright and the New Year one of prosperity.

The Sunny Spot

A Christmas Day that's filled with cheer,
And then a very happy New Year
Of hope fulfilled and Victory won.
With happiness for everyone.

To all our friends and patients, best wishes for
A Merry Christmas and Happy New Year.

DON'T CONFUSE THE SIGNALS

War comes. The manufacture of most civilian goods had to be cut down or stopped to make way for war production. This caused shortages of civilian goods—that was the **RED LIGHT**.

1939
RED
YELLOW

don't jump the YELLOW light

Some restrictions are now being lifted, but it does not mean lots of goods right away. War's demands are still huge and must come first. We can't neglect them just so that some of us here at home can get a little more.

Don't confuse the signals—(This is the **YELLOW LIGHT ONLY**).

It means a little more of some things and it helps business men get ready for the time when there will be more materials and workers available.

It does not mean the end of shortages!

Coming back to peacetime production will naturally be piecemeal and gradual.

"Patience" is the word.

it's NOT the green light yet

Only after Victory over both enemies can the Green Light be switched on, and the road cleared for enough production to meet all our civilian needs.

Season's Greetings

Many families can be with their near and dear ones in the unformed service in thought only this Christmas, while others will experience the joy of having the family circle complete.

Whatever the circumstances under which our patients and friends find themselves, this season means, we wish them all the happiness it can bring.

During the year we have made extensive additions to our bus lines and we look forward to be able to serve you on an even more extensive scale in the months to come.

On behalf of the management and staff we wish to express our deep appreciation of the thoughtful cooperation we have received from the travelling public during the year.

Please accept our sincere wishes for a
Joyous Christmas and a Merry New Year.
